BOLGIANO'S EXTREMELY EARLY I.X.L. TOMATO

1st Earliest, largest, absolutely smooth tomato on earth. A week earlier than the "Earliana" and as large as "The Great B.B."
2nd A beautiful, brilliant red color.
3rd Vines are a perfect mass of large, smooth fruit.
4th Fruit is extremely early, enormously abundant and ripens all at once.
5th Vines are very compact and can be placed two feet apart, in three foot rows.
6th As an extremely early prolific stem setter it is a wonder.
7th The absence of unnecessary leaves permits all the fruit to ripen so remarkably early.
8th It is almost like finding money to grow the I.X.L. tomato.
9th The largest tomato growers tell us, we cannot say too much in favor of the "I.X.L. tomato."

Price, Pkt. 25¢, ½ oz. 50¢, 1 oz. 75¢, 2 oz. $1.25, ¼ lb. $2.50, 1 lb. $8.00

OUR MODERN NEW HOME—**LIGHT AND PRATT STREETS**—YOU ARE ALWAYS WELCOME HERE

SPECIAL DISCOUNT ON SEEDS IN PACKETS AND OUNCES.

We wish to call your attention to our special discount on seeds in **packets** and **ounces.** It takes as much time and care to fill an order for 15 cents as one for $1.00 or more, and so we offer the following discounts:

$1.00 buys seeds in packets and ounces to the value of $1.30.
2.00 " " " " " " " " " " 2.75.
3.00 " " " " " " " " " " 4.25.
$4.00 buys seeds in packets and ounces to the value of $5.70.
5.00 " " " " " " " " " " 7.50.

This discount applies to seeds in **packets** and **ounces only,** and is not allowed on seeds by the ¼ lb., lb., pint, quart, peck or bushel, nor plants or bulbs.

FREE DELIVERY BY MAIL. We deliver free to any post-office in the United States all vegetable and flower seeds offered in this catalogue by the packet, ounce, quarter-pound. For half-pounds and upwards add 8 cents per pound.

SEEDS ALONE occupy our time and attention. Your orders are handled by experienced men. We do not handle machinery, tools, hardware, dairy and poultry supplies, dogs, chickens, birds, wagons, harness, etc. Therefore, having no other interests at stake, we are much better able to supply you at very low prices with fresh, carefully grown, reliable tested Seeds, than any farm implement or agricultural supply house who only sell Seeds as a side issue. Your orders, large or small, are given the same careful attention. No orders too large for us to handle and none too small for our best care. Mail us your orders.

By writing out your Order on the Order Sheets which accompany this Catalogue, you will greatly facilitate our work.

Send by mail if you cannot get to see us. We will send you Seeds that have been saved with great care. You will be pleased with the crops, and satisfied with our prices.

IF YOU ARE SATISFIED WITH US, with the goods you receive, the treatment we give you and your general business relations with us, will you do us the favor of mentioning the fact to some of your neighbors? If we can please you, we can please others, and we assure you that we will be careful to make your friends more than satisfied with the experiment.

When Best to Order.—We are fully equipped for filling orders, and supplied with New Crop Seeds. Order at once, so that you can have your seed on hand ready to start planting your crops at the proper time without delay.

Be sure to Sign Your Name and Address.—If by boat or railroad say distinctly which boat or railroad to ship by, and if freight has to be prepaid add this amount to your order to prevent delay.

If you have Rural Mail Delivery be sure to give the Name and Number of your Route, if necessary, when ordering.

CHANGE OF ADDRESS.—If you have changed or intend to change your address, please let us know, and we will change it on our books, so that you will receive our Catalogues at your new Post-Office.

SOMETHING NEW.—Cost of remittance may, on all orders over $1.00, be deducted from the amount sent.

GUARANTEE.—We Guarantee all Shipments of Seeds, when Remittance accompanies order, to reach the purchaser safely and in good condition.

REDUCED EXPRESS RATES.—By our guaranteeing the Expressage all the express lines in the United States and Canada, in the traffic agreement, are now carrying seeds at a reduced rate of 20% less than merchandise rates.

CASH SHOULD ALWAYS ACCOMPANY THE ORDER.—We will be responsible for money sent by Post-Office Order, Express Money-Order, Bank Draft, Express or by Registered Letter.

POST-OFFICE ORDERS cost, for any amount up to $2.50, 3 cents; over $2.50 and not exceeding $5, 5 cents; over $5 to $10, 8 cents; over $10 to $20, 10 cents; over $20 to $30, 12 cents; over $30 to $40, 15 cents; over $40 to $50, 18 cents; over $50 to $60, 20 cents.

EXPRESS MONEY ORDERS are issued by express companies at their agencies, and cost, for amounts not over $5, 5 cents; $10. 8 cents; $20, 10 cents, $30, 12 cents; $40, 15 cents.

BILLS, COIN OR STAMPS (we accept postage stamps the same as cash) can be sent safely by registered letter. Every postmaster is required to register any letter on payment of 8 cents extra postage.

Market Gardeners, Farmers' Clubs and Institutions wanting to purchase Seeds in unusually large quantities should write for special prices. We have made prices very low in this Catalogue, yet when a number of bushels or pounds are wanted we can frequently supply at lower price than by the single pound or bushel. In writing give us a list of quantities and varieties required, and we will return list promptly with our lowest price for the lot.

Always remember that we can save you money, no matter where you live. Write us about any Seed you would like to know of, and your letter will be answered the same day it is received. If you wish to know exactly what the freight or express would be on any article to your station, write us and we will tell you.

Prices in this Catalogue Subject to Variations.

Special Quotations for Large Quantities.

SPECIAL FOR SMALL GARDENS.—$2.00 worth of Bolgiano's Reliable Garden Seed will produce from $100 to $200 worth of vegetables in any good Kitchen Garden. When vegetables come fresh, each meal, from your own garden, they are very delicious.

GUARANTEE.—There are hundreds of contingencies continually arising to prevent the best Seeds giving satisfaction; such as sowing too deep, too shallow, in two wet or dry soil; insects of all descriptions destroying the plants as soon as, or before, they appear; wet weather, cold weather, frosts, chemical changes in the Seed induced by temperature, etc. For the above reasons it is impracticable to guarantee Seeds under all circumstances. We give no warranty expressed or implied, as to description, purity, productiveness or any other matter of any seeds, bulbs or plants we send out, and we will not be in any way responsible for the crops grown therefrom. If the purchaser does not accept the goods on these terms they are at once to be returned and the money that has been paid for same will be refunded. We test our Seeds before sending out. We cannot afford to send seeds doubtful as to their vitality or purity.

Bolgiano's "Greater Baltimore" Tomato

There is no Tomato EQUAL to it. There are Other GOOD Tomatoes, but "GREATER BALTIMORE" Tomato is BEST OF ALL.

1. GREATER BALTIMORE TOMATO IS THE HIGHEST MOUNTAIN TOP OF SUCCESS IN TOMATO GROWING
2. JUST DOUBLES YIELD OF THE BEST CROPPING TOMATO YOU HAVE EVER GROWN.
3. Smooth, well-formed and deep from stem to blossom.
4. Its extremely heavy weight is due to its firmness and great meatiness.
5. It ripens evenly to the stem and is entirely free from ridges, cracks and blight.

We Again Stake Our 88 Years of Honorable Reputation Back of this Wonderful Tomato. It's as Good as Gold.

6. Unrivaled shipper, due to its solidity and firmness.
7. Fruits in large clusters at every second joint, joints are short and sturdy.
8. Brilliant red color, the handsomest Tomato we have ever seen.
9. Vigorous, compact, healthy vines.
10. The Grandest Second Early and Main Crop Tomato on Earth.

Price,

Pkt. 10c and 25c, 1/2 Oz. 50c, 1 Oz. 75c, 1/4 Lb. $1.50, Lb. $5.00.

279. **Bolgiano's "Greater Baltimore" Tomato.**

We first introduced this Leader of all Tomatoes, last season, having become fully acquainted with its Sterling Merits from extensive field tests made during several preceding years. Not in one of these seasons, however, did we meet with such unfavorable weather on Tomatoes, as we had last year. Nothing more fortunate for the "Greater Baltimore" Tomato could have occurred, for where most all other Tomatoes lost their blossoms, blighted, run all to vine, or bore a few inferior irregular fruit which quickly scalded, all on account of the heavy rains and scorching sun which quickly followed, the Greater Baltimore Tomato held its blossoms and came off triumphant, yielding a large handsome crop of smooth, well-formed, solid, heavy, brilliant red Tomatoes. "The proof of the pudding is in the tasting," therefore, as the "Greater Baltimore" Tomato has yielded for us a full crop of seed, when every other variety on our Tomato Seed Farms has yielded short this year, (some only producing 25% of a crop) we are able to lower the price of the seed from $10.00 a pound to $5.00 a pound. We do this in the face of the fact, it required from 4 to 5 bushels of "Greater Baltimore" Tomatoes to make one pound (1 lb.) of seed, as the Market Value at the time of saving the seed, was ranging from $1.00 to $1.25 a bushel, you can readily see we are always ready to sacrifice a mere money return in protecting our Great Seed Interests. Not one Tomato from any of our Seed crops was sold, but each field was saved most carefully for seed. Therefore, remember when you buy a pound of the "Greater Baltimore" Tomato for $5.00, you are really getting in Tomatoes alone a Market Value of $5.00 to $7.50. Above we give in a concise form Ten Points of Merit in this Grand New Tomato—a Tomato bound to lead all other varieties with the Market Gardener and Southern Shippers.

Gentlemen:—"The Spark's Earliana Tomatoes you sent me last year were good and true."

BOLGIANO'S EXTREMELY EARLY PROLIFIC I. X. L. TOMATO.

277. In Market Gardener's Field Tests, last season, I. X. L. Tomato proved to be a week to ten days earlier than the Spark's Earliana, with an abundance of Fruit larger and more prolific than Chalk's Jewel, in fact any number of specimens could be found as large as the Great B. B. Tomato. It has a little more vine and leaves than the Wealthy Tomato, thus protecting the blossoms from being easily knocked off, by heavy rains or winds; also protecting the fruit from being sunburned or scalded. The I. X. L. Tomato is without a single exception the Leading Extremely Early Tomato, and while many of the most intelligent Tomato growers tell us we cannot say too much in favor of this Excellent Early Tomato, there are many who have not grown it yet. To them we say again, do not experiment with it but plant your entire early crop in I. X. L. Tomato, your crop will net you big returns. We stake Our Reputation on I. X. L. TOMATOES. Below we give in a concise form the most striking features of this Tomato.

1. EARLIEST, LARGEST, ABSOLUTELY SMOOTH TOMATO ON EARTH. A week earlier than the "Earliana," and as large as the "Great B. B."
2. A beautiful, brilliant red color.
3. Vines are a perfect mass of large, smooth fruit.
4. Fruit is extremely early, enormously abundant and ripens all at once.
5. Vines are very compact and can be placed two feet apart in three foot rows.
6. As an extremely Early prolific stem setter it is a wonder.
7. The absence of unnecessary leaves permits all the fruit to ripen so remarkably early.
8. It is almost like finding money to grow the I. X. L. TOMATO.
9. The Largest growers tell us we cannot say too much in favor of the I. X. L. Tomato.

Price, Pkt. 25c, 1/2 Oz. 50c, 1 Oz. 75c, 2 Ozs. $1.25, 1/4 Lb. $2.50. 1 Lb. $8.

Bolgiano's Florida Special Tomato.

BOLGIANO'S "Florida Special" Tomato

The Greatest Blight Resisting Tomato on Earth.

311. Not a single grower of Tomatoes, in Florida or in any locality where blight has injured Tomato crops, should go through this season without trying this most excellent New Tomato. We call it "Florida Special" for it has been most carefully bred up to resist the ravages of blight which has been so discouraging to our Florida customers. It is Red in Color, large in size, fine flavored, firm and meaty, very prolific, and about as Early as the Earliana. It is a most excellent shipper, in fact during our entire time of selecting and breeding up the Florida Special, we took the utmost pains in selecting such Tomatoes as would stand the long shipment to the Northern Markets from Florida. We are confident Bolgiano's Florida Special Tomato is going to make a record this year, that will put it head and shoulders above any Tomato that has ever been introduced, excepting the I. X. L. Tomato. **Price, Pkts. 5c & 10c. Oz. 40c. 1/4 Lb. $1.35. 1 Lb. $5.00.**

Bolgiano's New Century Tomato

Fla., Aug. 3, 1905.
Mess. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:
"We bought, a few days ago, from a local seedsman, ½ lb. New Century Tomato Seed, but they were grown by another Seed Company, and to be sure of getting what we want, we threw away these seeds and ordered from you, as you are the originators of this New Century Tomato."
Janes Brothers.

I grew your famous New Century Tomato last year and they were without exception the finest I have ever grown or seen. I have been gardening for 20 years.
Isaiah Brenner. Md.

Mess. J. Bolgiano & Son, Baltimore, Md.
Gentlemen:
Your New Century Tomato is the finest that I ever saw. Six fill a four-quart basket. I will plant nothing else after this.
Yours truly,
C. W. Chapman, Fla.

Gentlemen:
Your New Century Tomato bought of you last Spring is the wonder of the neighborhood. It has a delicious flavor, smooth and perfect. They excelled their picture.
Yours truly,
W. L. Burroughs, North Carolina.

283.—BOLGIANO'S NEW CENTURY TOMATO.

Seven years ago, when we first introduced the NEW CENTURY Tomato, we felt as though the limit for improvement in Tomatoes had been reached, and judging from the letters we are receiving every season and from the great quantities of seed we annually sell, the New Century is still held in very highest esteem by thousands of market gardeners and shippers all over the country. If you hesitate to plant your entire crop in the newer varieties, you can always feel that **New Century is an Old Friend Tried and True.** Read the recommendations on this page and you will see in what high esteem it is held. We have spared no pains or expense in keeping this stock as pure and true as it was at the beginning; in fact, by most careful rogueing, eliminating and selecting, we believe New Century Tomato is better to-day than it ever was. New Century will outyield many other kinds; it will carry for two weeks without hurting its beauty; it will attract attention and pay you; it will not crack; it is of a beautiful red color; of large handsome size from first picking until last Tomato is taken from the vine. It far surpassed our greatest expectation.

Pkts. 10c and 15c, Oz. 25c, 2 Ozs. 50c, 1/4 Lb. 75c, 1/2 Lb. $1.25, Lb. $2.50.

287. CHALK'S EARLY JEWEL TOMATO.

This excellent new Tomato has attracted the attention of market gardeners and shippers on account of its fine quality, its wonderful productiveness, earliness and large size. Chalk's Jewel is not quite so early as the Earliana, or so large as the I. X. L., but size of the fruit continues very large almost to the last picking. The vines are fairly loaded with fruit during the entire season, 75 of which will fill a ⅝ bushel basket. The fruit is very solid and deep through, measuring 3½ inches across by almost 3 inches in depth. Color is bright scarlet and it ripens up to the stem, without cracks or green core. It is an excellent shipper. The climate in which we grow our Tomato seeds, makes them earlier, freer from disease and blight, and more productive than seed you can produce from any other source. Try them for yourself. We stand by our claims. If you want the best stock of any Tomato that grows get it from Bolgiano of Baltimore. **Price, Pkts. 5c & 10c, Oz. 25c, 2 Ozs. 40c, 1/4 Lb. 75c, 1/2 Lb. $1.50, Lb. $3.00.**

302. **KELLEY RED OR WADE TOMATO.**—This splendid Red Tomato originated in Anne Arundel County, Md., and through its superior qualities it has become the Tomato most largely used in that section. It is large, meaty, an abundant yielder, and withstands unfavorable conditions remarkably well. **Pkts. 5c & 10c, Oz. 25c, 1/4 Lb. 90c, 1 Lb. $3.50.**

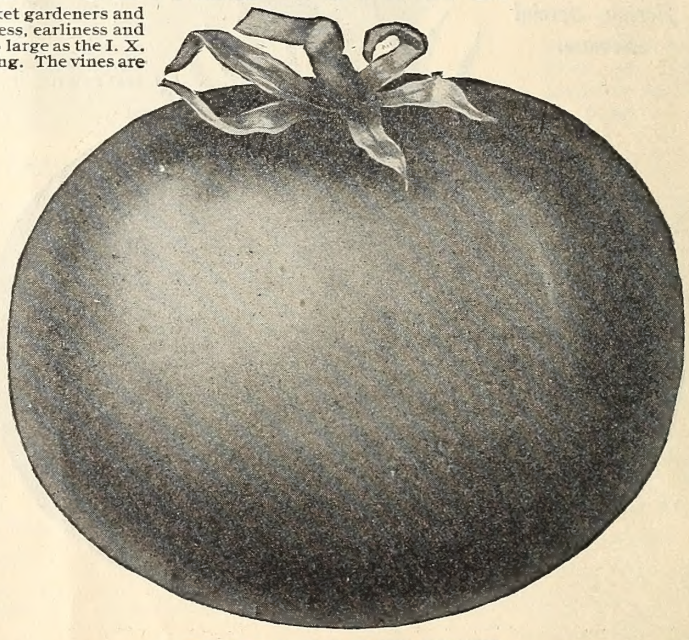

LIVINGSTON'S NEW GLOBE TOMATO.

Of Special Value for the Home Garden and Florists.
New Tomato, Livingston's Globe.

In shape it is distinct from all others, being a beautiful globe, with quite a good percentage of elongated (stem to blossom) fruits. It is among the first to ripen; fruit of large size, and a good marketable size is maintained throughout the season; always smooth, firm-fleshed, and has very few seeds. Ripens evenly through and through; a fine glossy rose in color, tinged with purple; very productive, the plant is always loaded with fruit, as it has joints at frequent intervals and each joint produces large clusters of from 3 to 7 fruits. Especially adapted to slicing or eating from the hand as the flavor is very delicate and agreeable. **Pkts. 10c & 25c, Oz. 65c, 2 Ozs. $1.25, 1/4 Lb. $2.50, 1/2 Lb. $5.00, Lb. $10.00.**

You Can Select any Six 5c. Packets for 25c, or any Three 10c. Packets for 25c.

For our Complete List of Tomatoes, see Pages 41, 42 and 43.

10. **Our seed is saved from the finest melons of the first picking.**
11. **Each individual melon is cut open by hand, and carefully inspected both inside and out.**
12. **Last, but not least, it is an excellent shipper, having deep flesh at the blossom end. The blosson end in many other strains is a very weak point.**

Mess. J. Bolgiano & Son, Baltimore, Md. Gentlemen—I tried some of your Watermelon, Cucumber, Cabbage, Cantaloupe and Tomato seeds, and am well pleased with the results. *PETER L. BAKER. Florida.*

Purest and Best Strain grown.

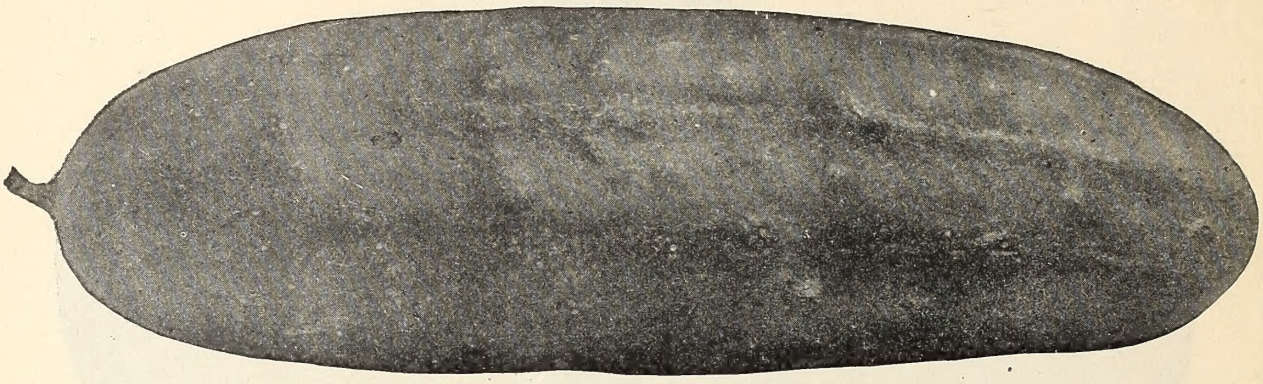

157. There is a difference in the stocks of the Rocky Ford Melons that are being placed in the truckers' hands, and that difference is most severely felt when the trucker places his so-called Rocky Ford stock on the market alongside of some of Bolgiano's true, handsome, most deliciously flavored stock. It does not need the eye of an expert to discern the difference, for the one presents regularity of form, uniformity of size, each Melon cut proving the parent luscious stock; and the huckster, shipper, commission merchant, fruiterer, hotel-keeper, quickly purchase this stock, knowing that they never have trouble selling at good prices a Melon of such trueness and quality. Bolgiano of Baltimore can send it direct to you, no matter where you live. It is impossible to secure truer, better stock, even if you pay five times the price we ask. We await your order, and shall take pleasure in promptly filling the same. **Pkt. 5c. Oz. 10c. 1/4 Lb. 15c. 1/2 Lb. 25c. Lb. 50c.**

Bolgiano's Famous Early Fortune Cucumber.

The most popular White Spine Cucumber in America

If you grow Cucumbers, you cannot afford to be without Bolgiano's Early Fortune.

Bolgiano's Famous New Early Fortune Cucumber.

The Earliest and the Best White Spine Cucumber ever offered.

84. Full-blooded, as pretty as a picture, and extremely early, wonderfully productive, a model in shape, of the most inviting and attractive deep green color. Is there any wonder we name this money-maker "Early Fortune" Cucumber? From very expensive and thorough tests of every cucumber grown, we selected the parents of this excellent stock. The result went far beyond our greatest hope. We found we had a Cucumber that was without a doubt the finest in the world. Realizing a very heavy demand would come as soon as the Cucumber growers learned of our "Early Fortune" Cucumber, we let one year go by to insure our supply of seed, but even now the quantity of this seed is very limited. If you wish to secure any of it this coming year for hot-house, frames, or even open field culture, you had better order immediately, or our short supply will be exhausted. **PKts. 5c and 10c, Oz. 15c, 1/4 Lb. 30c, 1/2 Lb. 50c, Lb. $1.00.**

NO VARIETY IN THE WORLD CAN EQUAL THEM.

Messrs. J. Bolgiano & Son, Baltimore, Md. July 23, 1905.

Gentlemen:—I have been growing other varieties of Cucumber for many years, but have not found any half as good as Bolgiano's Famous New Early Fortune Cucumber. I grew them this year eleven inches long, and they are nearly all one shape. No variety in the world can equal them. *Gelston Dougherty, Md.*

Gentlemen:—Through our recommendation several of our Southern shippers have been planting **Bolgiano's Early Fortune Cucumber Seed** *for the past several years, and as we have handled the yield from these Early Fortune Seed, it affords us great pleasure to say to you that we never handled a finer stock in* **our experience of handling Cucumbers for the last 25 years.**

We wish to make mention of two of our customers that have had some difficulty in getting a Cucumber Seed that would produce something that would **excel in quality and quantity.** *Messrs. W. H. Mills & Sons, Wilmington, N. C., and L. Carpenter, Brewer, Ga., had some most excellent results from this variety of Cucumbers this season.* **We never handled better Cucumbers. They were not only attractive in appearance, but deep green in color and very regular in shape.** *Their stock was much sought after by our customers and we had no trouble in always obtaining the highest market price for them. Some of our customers who purchased the stock claim they would retain their deep green color* **for twice the length of time** *than any other stock they purchased. We hope that whenever any of our customers order Cucumber Seed from you, you will always send them the* **Early Fortune.** *Yours truly,*

A LITTLE INCIDENT SHOWING HOW HIGHLY BOLGIANO'S EARLY FORTUNE CUCUMBER IS ESTEEMED BY ONE OF THE LARGEST CUCUMBER GROWERS IN FLORIDA.

When our representative was in Florida, he called on Mr. G. F. Connell at Oakland. Mrs. Connell met him at the door, and told him Mr. Connell was sick. During the conversation, however, Mr. Connell resting on a couch in a nearby room heard the name of Bolgiano; he immediately told his wife to show our representative in. He said he was feeling too sick to transact much business, but there was one thing he certainly did want to order and that was 60 lbs. of Bolgiano's Early Fortune Cucumber, as the Early Fortune Cucumber had made him more money last season than any Cucumber he had ever grown.

If your order amounts to $1.00 or over, purchase your money order or register your letter at our expense.

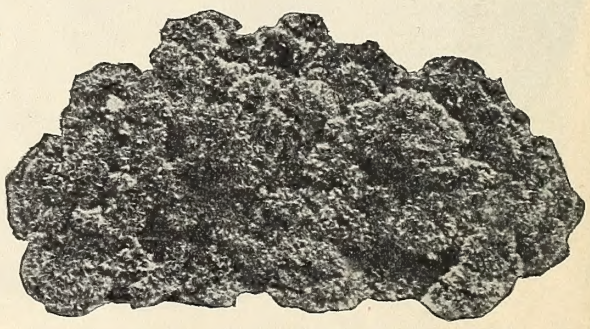

Bolgiano's Green Mountain Triple Parsley.

A Table Adorner of Rare Beauty.

221. Never before have we been able to offer to the public a gift of Nature equal to our beautiful Green Mountain Parsley. Always alert, always ready to appreciate any seed of exceptional merit, we soon saw that everybody would want our new Green Mountain Parsley when they heard of its wonderful beauty. Hardy, immensely productive, deep velvet green. The leaves are densely curled and are borne in abundance. It is exceptionally easy to grow, and with very little care everybody can have for the whole year round a bed of the finest flavored Parsley in cultivation. If you have but a few square feet, you can raise sufficient Parsley to supply your table with decoration and your soups with fine fresh flavor. If you grow for your market stall, you cannot afford to have poor Parsley when your neighbor has the beautiful Green Mountain Triple Parsley. If you are a shipper to Northern markets you grow Green Mountain Parsley and you will make more money than you ever did. **PKts. 5c and 10c, Oz. 15c, 1/4 Lb. 30c, 1/2 Lb. 50c, Lb. $1.00.**

Bolgiano's New "Square Deal" Cabbage.

(See Painting on Back Cover.)

154. Without a single exception, **Bolgiano's New "Square Deal" Cabbage** is the Biggest Money Making Cabbage ever offered the American trucker. This is a strong assertion and at least 50,000 people will read it, so you can readily see we could not afford to make such a statement unless we were sure of our ground This "Square Deal" Cabbage matures immediately after our New Leader Cabbage. It is absolutely a "Square Deal," as we have seen ten-acre fields without a single irregular head. The uniform heads are of excellent size for shipping, larger than the New Leader, and yet not so large as to be unwieldy. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with a very few outer leaves. For a Fine, Solid, Tender, Uniform, Early Flat Cabbage, Bolgiano's "New Square Deal" Cabbage challenges the world. The demand for a fine Cabbage of this character, led us by the most rigid and careful selection, during the past five years, to mature this Cabbage, which we are confident will give all our friends and customers a "square deal" every time.

BOLGIANO'S NEW "SQUARE DEAL" CABBAGE.

"BIG WINNER" WAKEFIELD CABBAGE.

25. We introduced the **Big Winner Wakefield Cabbage** last season, and it has already become very popular with Cabbage growers, both large and small. It is as large as the Big Charleston Wakefield Cabbage and as early as the Early Jersey Wakefield. Handsome in appearance, massive and graceful. The heads are solid and heavy, making a perfect shipping Cabbage. It is fine form and in flavor deliciously sweet. Among the pointed heading Cabbage it is *by far* "The Big Winner Wakefield." Don't let this season go by without a liberal planting of this Profit Producing Excellent Cabbage.

BLACK BEAUTY EGG PLANT.

26. **Bolgiano's New Leader Cabbage.**—Crowned with success throughout the country. "THE LEADER" of all the flat-headed Cabbages. As early as the Wakefield, yields 12,000 heads, one-third more per acre than any other extra early Cabbage. The outer leaves are so few and so small that they can be planted very close. The heads are compact and solid from the time a head is formed and keeps so until thoroughly matured, thus enabling extremely early cutting of small hard heads, or later, when the Wakefields come in, of large thoroughly matured, solid, round, flat heads. In quality, it is again, "The Leader;" the veins of the leaves are extremely fine; its rapidity of maturing, compact growth gives it a flavor unequalled. The demand for such a Cabbage in Northern Markets is becoming greater and greater each year. The people want an extremely early new slaw head Cabbage and "THE LEADER" supplies their wants. **Pkt. 10c. Oz. 25c. 1/4 Lb. $1.00. Lb. $3.50.**

BOLGIANO'S BLACK BEAUTY EGG PLANT.

Two Weeks Earlier than any other Egg Plant.

100. **Bolgiano's Black Beauty Egg Plant.**

1. An entirely new variety and a splendid shipper.
2. A novelty of remarkable merit.
3. As large as the New York Spineless Egg Plant.
4. Two weeks earlier than the New York Spineless Egg Plant.
5. Fine flavor.
6. Most attractive appearance.
7. Plants branch freely near the ground.
8. Skin a rich lustrous purplish black.
9. Satin gloss and rich coloring add greatly to the beauty of fruit.
10. The intense brilliant coloring is uniform over the whole fruit and does not fade or change to a lighter color at the blossom end.
11. The heavy leaves which attach the fruit to the stem are bright green, making a beautiful contrast with the fine dark color of the fruit.
12. Thoroughly free from spines or thorns.
13. Fruit sets freely.
14. Coming two weeks earlier than the New York Purple Egg Plant, they readily bring double the price. **PKts. 5c and 10c, 1/2 Oz. 15c, Oz. 25c, 2 Ozs. 50c, 1/4 Lb. 90c, 1/2 Lb. $1.75, Lb. $3.50.**

FLORIDA HIGH BUSH EGG PLANT.

99. **The Florida High Bush Egg Plant** has proved of the greatest value to Southern truckers and shippers. It has been grown in Florida for the past three or four years. It is remarkable for its vigorous growth and productiveness, is very hardy, and will stand more cold weather than the New York Improved. The hot sun does not blight the blossoms. The plant has a characteristic leaf, unlike any other Egg Plant we know of. It grows from three to four feet high, erect and sturdy, free from thorns. Fruit is large, oblong in shape and purple, though not so deep a color as the New York Improved. It resists drought and wet weather to a wonderful degree, partly on account of its strong upright growth. It stands the cold better, and is the only Egg Plant that stands shipping from this section to the Northern markets under almost all circumstances. It is of a large size, first-class shape and superior flavor. Its shipping qualities are the very best. It brings the highest price in the Northern markets, keeping its freshness and condition much longer than any other variety. The growers realized good returns for this variety when all other varieties have been reported "arrived in bad condition," and many would not plant any variety. **Pkt. 10c. Oz. 25c. 1/4 Lb. 90c. 1/2 Lb. $1.75. Lb. $3.50.**

54 **THE BEST IN THE WORLD.**

1. **It heads when others fail.**
2. **Large perfect heads measure from 12 to 14 inches in diameter.**
3. **The beautiful white heads are compact, deep and solid.**
4. **Heads will outweigh those of any other strain.**
5. **It is the earliest of all Cauliflowers.**
6. **One-third more can be planted on the same space than can be done with other varieties because of its close growing compact habit.**
7. **It is the Most Carefully Grown Cauliflower Seed in the World.**
8. **The Best is the Cheapest. Receiving the care and attention which is absolutely necessary for the growing of this Special Stock.**

WE CAN NEVER SELL IT FOR LESS THAN $1.00 for 1/4 Oz., $2.00 for 1/2 Oz., $4.00 per Oz., $15.00 per 1/4 Lb.

Messrs. J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—Last Spring I planted your "New Century Cauliflower" seed alongside of Henderson's Snow Ball Cauliflower. I have been growing Cauliflower and truck on a large scale for the past 47 years, and in all of my experience I have never seen a Cauliflower to equal the New Century. It is as early as the Snow Ball, but produces much larger and more attractive heads. Whenever I brought it home for our own use the folks always knew I had the New Century, and my helpers who have stood by me many years agree with me in this statement. On the market the New Century Cauliflower would sell at a much higher price than any others, and the person who hesitates about buying the New Century on account of the difference in price, is making a serious and great mistake, because in one small sale he can more than make up the slight difference.

HENRY FAUTH,
Catonsville, Md.

BOLGIANO'S "COLD MOUNTAIN SPRING" WATERMELON.

Bolgiano's Cold Mountain Spring Watermelon.

171. **New variety.**—Last summer we were spending our vacation in the Mountains. During our absence, one of the leading Watermelon growers, living about 100 miles from Baltimore, wrote us, he had for a number of years been developing an extra, selected strain of Watermelon, and the results of his efforts had gone far beyond anything he had ever hoped to produce. Were we interested? He shipped us several samples, these came on boat to Baltimore 100 miles, then on railroad through the mountains for 250 miles. Reaching us in perfect condition after traveling 350 miles, through rough country and roughly handled. These Melons attracted the attention of everyone by their beautiful deep green color, stately size, and excellent shape.

J. Bolgiano & Son,
Baltimore, Md.

The packet of your melon, "Cold Mountain Spring" was planted, and fulfilled every claim you make for them. In fact they are the ideal melon for Southern markets, prolific, uniformly good size, tough rind, flesh firm and delicious. You may expect a good demand for this variety of seed at this point another season. Advertise early, keep the stock pure and grown in the South, Georgia or the Carolinas, and you have a bonanza in this melon.

Yours truly,
S. B. Brantly
Clermont
Fla.
July 1, 1905.

We had them on exhibition, then took them with us back into the mountains. We put the Melons in a **Cold Mountain Spring**, and in a few hours we cut them. The Melons were in perfect condition, "Red to the Rind," and entirely free from stringiness. We immediately inspected the crop. The **Cold Mountain Spring Watermelon** is a winner as a shipper, as a table Melon and as a Money Maker. Our supply of seed is necessarily limited and only the seed produced by the originator, so order immediately. **Pkt. 10c. Oz. 15c. 1/4 Lb. 40c. 1/2 Lb. 75c. Lb. $1.50.**

83. "Wonder-Worker"

Bolgiano's Earliest Wrinkled Pea.

The most delicious pea you have ever eaten. They fairly melt in your mouth. If you never have eaten a "Wonder-Worker" Pea, you don't know what a good Pea tastes like.

Six weeks from planting, this wonderful, large wrinkled Pea can be marketed. In earliness, great size and excellent flavor, it is unequalled. The Peas fairly melt in your mouth. The vines grow 2½ feet high, are very hardy, resisting pests and cold weather. It bears an abundance of large, even, deep green pods. It is claimed the Wonder Worker Peas are superior in earliness, hardiness, and large size pods, to the Gradus or Prosperity Pea. It is the finest early Pea yet introduced.

Packets 5c and 10c. Pt. 25c. Qt. 40c. 2 Qts. 65c. Gal. $1.25. Pk. $2.50. 1/2 Bus. $5.00. Bus. $10.00.

89. "Cracker Jack"

BOLGIANO'S SECOND EARLY WRINKLED PEA.

"CRACKER JACK" continues to bear an abundance of most delicious Peas, when all other varieties are dried up by the hot sun of the Early Summer,

89. **Bolgiano's "Cracker Jack" Pea.**

1. A wonderful yielder.
2. Vines 2 feet, 2 inches high.
3. Growth hardy, robust and vigorous.
4. Extremely large pods, have a handsome *dark green color* and are borne even more abundantly than on the Dwarf Prolific Green Marrow Peas.
5. Ready for market, just as the Wonder Worker Peas are over.
6. If planted a little late will stand the warm weather excellently.
7. It's the Pea you market gardeners have been looking for, *and it is a "Cracker Jack."*

"Your Big Boston which I planted were fine. Made money."
H. R. Sams,
S. C.

156. **Big Boston Lettuce** is the most valuable Lettuce in cultivation, its excellent qualities have made it the most popular and most extensively used Lettuce in the world. It can be grown in the open ground for Summer or Fall, in frames for Spring or forced cool in greenhouses for Winter use, producing under each condition, grand, large, buttery, yellow heads, filled with sweet, crisp, tender, beautifully blanched leaves. Stands long without going to seed; has few outer leaves and makes a large, attractive plant. **Big Boston Lettuce is specially adapted to cool open-ground culture.** Many thousands of pounds are thus grown in Florida and other Southern States during Winter and shipped to Northern markets at very attractive prices. Our stock of this famous Lettuce is the finest in the world and our low prices are consistent with the great quantity of this seed we sell each year. **Pkt. 5c. Oz. 10c. 1/4 Lb. 30c. 1/2 Lb. 60c. FRENCH GOLDEN SELF-BLANCHING

IS THE FINEST STOCK IN THE WORLD. **STANDS SHIPMENT BETTER THAN ANY OTHER.**

A THING WORTH KNOWING IF YOU GROW CELERY.

J. Bolgiano & Son, Baltimore, Md.
Last October I purchased of you 1 lb. of your New Crop French grown Self-Blanching Celery, and am well pleased with my crop, and will now take the 5 lbs. I requested you to reserve for me. *H. H. Chappell, Florida.*

Messrs. J. Bolgiano & Son,
Baltimore, Md.
Dear Sirs:—I have just finished cutting my Celery crop of three acres, 3064 crates selling f. o. b. here, for the nice little sum of $6,120.72. This has been an off-year too for us, as well as other Florida points, and this was grown from your seed secured last summer. I had a quarter of an acre measured and the Celery on it sold for $730.00. That was my heaviest yield.
Yours truly,

Gentlemen:—For many, many years I have been buying each year 2 pounds of your French Golden Self-Blanching Celery seed. It has always turned out first-class in every way.
Mrs. Laubach, Lexington Market.

71. **French Golden Self-Blanching Celery.—Most Important.**—While you can readily afford to put your whole crop in our stock of this most valuable Celery, you cannot afford to let this year go by without growing some of it. We have positively refused to sell all Self-Blanching Celery Seed except this stock. The Celery it produces will not only bring the highest market price, but will create a new price for you; your commission man can get outside figures for it, and he will sell quickly all you can ship. Try our stock; YOUR PRAISES will be louder than ours. Perfect, solid, crisp, vigorous stalks; thrifty, compact growth, self-blanching to a very remarkable degree; even the outer ribs become a handsome, fresh, yellowish color, with a heart that is large and solid, of a beautiful, rich golden yellow color. It never becomes stingy or pethy. To fully appreciate its beauty and attractions, it must be seen. Many of our customers place their orders with us six months before planting time in order to be sure of this stock of seed. **Pkts. 5c and 10c, Oz. 35c, 1/4 Lb. $1.00, 1/2 Lb, $2.00, Lb. $3.50.**

DON'T BUY UNTIL YOU READ ALL THESE LETTERS.

Messrs. J. Bolgiano & Son.
Gentlemen:—I have been growing Celery for the past 38 years, but the French Golden Self-Blanching Celery I raised this year from your seeds, beats any I ever saw. The sample stalk I am sending you weighs most 2 lbs. trimmed for market; this represents the average run of the crop.
Yours truly,
Henry Jasper, Germantown, Md.

J. Bolgiano & Son, Baltimore, Md.
I grew 3 pounds of your true French Golden Self-Blanching Celery seed last winter in the State of Florida, and they proved to be the very truest strain.
S. & S. W. Cobb, New York.

Gentlemen:—My Celery, grown from your French Golden Self-Blanching Celery Seed, took the premium in South Florida last season. It was the finest I have ever grown, and some of it weighed 3 lbs. to the bunch.
J. W. Teasley, Fla.

Your French Golden Self-Blanching Celery Seed is the best, and I took pains to let it be known, and you received a great many orders.
Yours truly,
W. H. Abel, Fla.

Gentlemen:—My crops were all fine this year. I bought all my Seeds from J. Bolgiano & Son, have been for 20 years, and highly recommend them to others. You can always rely on them. Your Self-Blanching Celery was the best in the neighborhood.
Yours truly,
Henry Mohr,

Gentlemen:—Year after year I take pleasure in telling you how fine your French Golden Self-Blanching Celery seed turns out for me. I have established a fancy trade by always having the choicest Celery in the market. My fear of buying inferior, hollow Celery seed has entirely left me, since your excellent stock has turned out so fine for so many years. *Jacob Krach.*

Bolgiano's Famous Stock.

Bolgiano's French Grown NEW VICTORY Celery.

81. As an excellent winter Celery, Bolgiano's New Victory has no equal. We have grown this seed in America for several years and find by careful experiments it loses some of its solidity; while Seed we have grown in France remains as solid as the finest stock of French Golden Self-Blanching Celery. As a result we have grown our entire supply for this Season in France and we can recommend it to you as the most solid and most profitable of all winter celeries. Our French grower, carefully selects by hand each individual plant in transplanting and only the absolutely solid plants are retained, the rest are thrown away. Again when he puts the full grown plants in Kilns for Winter, each individual plant is gone over and only the absolutely solid are put in the Kilns. Again in the Spring before putting the plants in the bed where the celery is to go to seed only the absolutely solid plants are used. We are sure our stock of French Grown "New Victory" Celery is the Best Winter Celery on Earth.

It has a great amount of heart, is heavier, stouter, and thicker than all its rivals. It is the most economical Celery yet introduced, every particle being solid, crisp, and of a delicious nutty flavor. Its beautiful, large, golden heart and compact growth make an ornament hard to surpass. It is a remarkable keeper, maintaining its firmness as late as May. Critical market gardeners pronounced it tobe of the finest quality, best keeper and most salable Celery they have ever raised. It is ready for market by December. **Pkts. 5c and 10c. Bolgiano's New Early May Queen Beans.

Bolgiano's Best of all Early Market Beans.

1005. **BEST OF ALL EARLY MARKET.**—One of the finest, most productive and most salable Extra Early Round, Green-Pod Bean Grown. This fine, new variety has numerous advantages over many other green-pod sorts. The pods are of a light silvery green color, long and perfectly round, solid flesh, very tender and stringless. In earliness and productiveness it is excellent. The pods are borne in thick clusters well under the foliage, thus they are thoroughly protected. Tests have proven it to be hardier than the Valentine, which enables it to be planted much earlier. Market gardeners will find it a very profitable sort to grow. **PKts. 5c. & 10c. Pt. 15c. Bolgiano's Sunshine Wax Bean.

1018. The beautiful, clear, attractive, bright golden color of this most delicious Wax Bean gave it the name of Sunshine Wax. In the market, side by side with many of the older and better known Wax Beans, the Sunshine Wax shone out and immediately attracted the attention of all.

The vines are so heavily laden with an abundance of long, round, shapely pods it seems hardly possible that they can hold them all. You think of the Sunshine again when you are marketing a large crop of fine Beans a week or two before your neighbors have begun to pick. Now is your chance; order quick. Our supply is very limited this season. **PKt. 10c. Pt. 25c. Qt. 40c. Gal. $1.25, Peck $2.25. Bus. $8.00.**

Early Neck

BOLGIANO'S WHITE COB 65-DAY CORN.

THE HANDSOMEST EARLY CORN THAT'S BROUGHT TO MARKET.

1049. You will be thoroughly pursuaded after one trial of this Extra Early Large Roasting Ear Corn that you cannot afford to let a single season pass without planting generously of this excellent Corn. White Cob 65-day Corn is the result of carefully selecting the earliest and largest ears of Gillespie's Early Neck Corn and crossing these with the earliest and best varieties of Sugar Corn. The result is a Corn of fine quality, of 12 to 14 rows and reliable no matter what weather it has to stand. Being large, extremely attractive, early, tender and sweet, it quickly sells at money making figures. **Ear 5c. Doz. 40c. 100 Ears $2.50. Pkt. 5c. Pt. 10c. Qt. 20c. Gal. 40c. Peck 75c. Bus. $2.50.**

Peepo'day Sweet Corn

1068. The two points of this remarkable Corn to which we wish to call most particular attention, are its extraordinary earliness and unparalleled sweetness; so marked is its sweetness and delicacy of flavor, that many of our customers who have been in the habit of planting several varieties to secure a succession, now plant PEEPO'DAY *exclusively*, arranging the plantings a few days apart so as to have this delicious Corn throughout the entire season.

Another point of great importance is the wonderful productiveness of PEEPO'DAY. In fact our crops of PEEPO'DAY have given us for three successive years almost double the yield per acre of any other variety we have grown, early or late.

Incredible as this may seem, it is readily accounted for by the fact that the stalks bear from two to five ears each and the growth being dwarf—about 4 feet—admits of a very close planting.

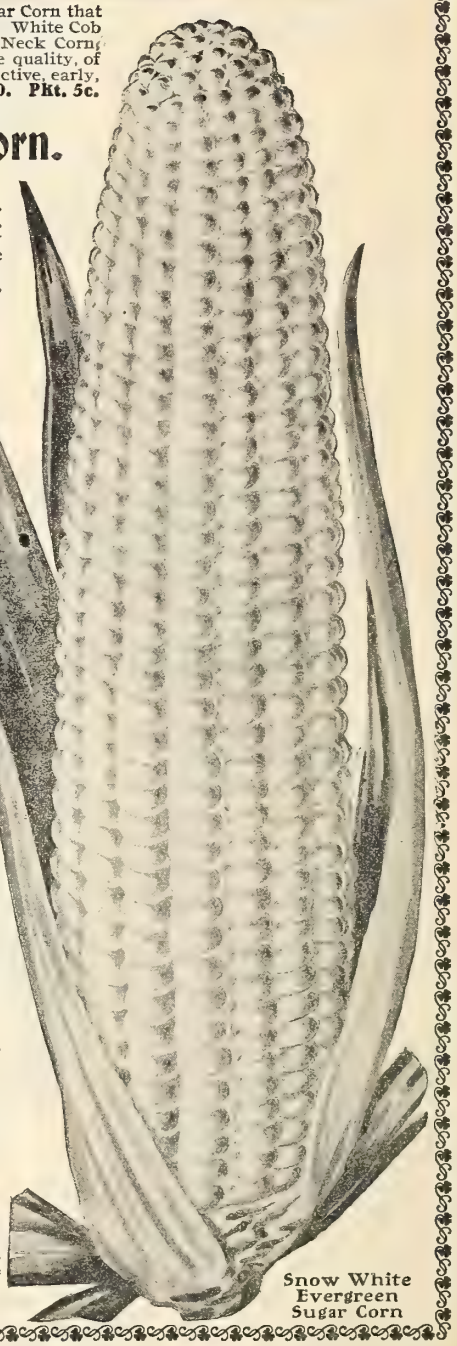

Price: Pkt. 10c. Pt. 15c. Qt. 25c. 2 Qts. 45c. Gal. 80c. Peck $1.50.

To have the finest sweet corn, it must be picked in just the right condition; that is, when the skin of the grain breaks at the slightest puncture, and plantings should be made frequently enough to have a supply at this stage.

FAMOUS DEEP BLOOD

Beauty Beet.

FOR FIVE YEARS THIS SPLENDID BEET HAS LED ALL OTHERS.

18. Our long experience in the growing of Beets has shown this new strain of Beet to be the best Extra Early Deep-Blood Turnip Beet, not only for market gardeners, but home garden. Its small upright growing tops, extra early maturing, splendid shape and deep crimson color make it popular with everyone. The rows may be grown close together. In the leaf the stem and veins are dark red, the blade green. The roots are globular and peculiarly smooth; color of skin and flesh is deep blood red, very crisp, tender, fine-grained and sweet, remaining so for a long time. We believe this excellent new stock will produce a crop more uniform in shape, color and quality than any Beet ever placed in the hands of the trucker. **Pkt. 5c. BOLGIANO'S PRIDE OF THE MARKET CARROT

THE MOST POPULAR CARROT THAT GROWS.

64. It is the most perfect, finest colored, most tender and best flavored carrot that was ever placed in your hands. Pride of the Market because it is the best. You must have the best of everything. In Carrots, to get the best we select roots that resemble our ideal, and from them grow seed for you. The Pride of the Market is half long, deep color, free from small side roots, small, tender, core, uniform and graceful. The photo. below will tell you what a perfect form it has. As an early Carrot, it is all your heart could wish. In mid-summer we have seen it outsell every other variety on account of its superior merits and quality; for Winter there is none like it. Its attractive tops remain a rich green, thus giving it a fresh and beautiful appearance, and enabling you to bunch it when your neighbor is compelled to sell his by the measure. This Carrot will make your stall attractive during Winter, when vegetables are scarce and uninviting. At all times of the year, and in every way you take it, the Pride of the Market Carrot will pay you and be your friend.

Bolgiano's Extra Early Ruby King Radish.

Already the Leader with Market Gardeners, and of Exceptional Value for the Home Garden.

230. **Bolgiano's Extra Early Ruby King Radish.**—KING OF ALL Extra Early Scarlet Radishes would be an appropriate name for this most excellent Radish. We claim without fear of challenge, Bolgiano's Extra Early Ruby King Radish is (without a single exception) by far the MOST BEAUTIFUL, Extremely Early Scarlet button Radish that has ever been brought to any market. The color is a bright, glossy, shining scarlet and when the dust or soil is washed from it, it fairly glows in its brilliant color. No Radish on earth will mature as quickly as the Ruby King, and have compared (with its size) such small foliage. It will stand forcing without becoming in the least pethy. The flesh is deliciously tender, juicy and mild. Equally good for open ground culture as for forcing. It is at its very best when permitted to grow quickly, but loses some of its attractiveness by being permitted to grow slowly. We have offered this Money Making Radish for five years and each year our sales so marvelously increase we feel satisfied that the wide-awake Market Gardeners are leading the very earliest markets all over the country with the Ruby King Radish. This is the reason we again place Bolgiano's Extra Early Ruby King Radish at the head of all Radishes. **Pkt. 5c. Oz. 10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 30c. Lb. 50c.**

CHINESE GIANT Pepper

226. Double the size of Ruby King Pepper and equally as mild. By careful and numerous experiments we have found this enormous mild red Pepper to be a money maker of great value to the trucker. The monstrous fruits are of a thick, blocky form and of the most brilliant glossy scarlet. They grow four to five inches broad at the top, and about four to five inches in length and are divided into four or more large ridges and when ripe they are indented at the blossom end. It is early, productive, and quickly sells on account of its enormous size. The plants are vigorous, stocky, and grow about two feet in height. They are well branched and thickly set with the largest Peppers, frequently half a dozen fruits will touch each other as if in a single bunch; the strong growth of the plants and abundant foliage enable them to mature the large number of fruits almost as early as the Famous Ruby King. **Pkt. 10c, Oz. 25c, 1/4 Lb. $1.00, Lb. $3.50.**

A Leading Specialty of Our House for Many Years.

There is a very short Crop of all Onions both in Europe and America. Order early.

214. This superior stock of White Portugal Onion Seed Northern grown, is almost exclusively used for growing sets, which is the strongest proof that it is the best from which to grow the large white Onions. This most delicious Onion has greater popularity today than ever. Its delicate, mild flavor, its stately form and large, handsome size, its pure white color, make it a most desirable variety for the table, the most profitable for market and shipping. Plants are of an extremely thin neck type, and sure to ripen early. Bulbs are perfect in form and quite thick through. They are fine-grained, crisp and mild. Bulbs should be harvested as soon as ripened and dried in the shade to preserve their silvery white skin, the attractiveness of which makes them command the highest market prices, and removes the necessity for peeling them. **PKts. 5c and 10c. 205. **PRIZETAKER ONION.**

Its Mildness of Flavor and Tenderness are Unequalled Even by the Bermuda Varieties. In Size it is Not Excelled by the Enormous Varieties from Spain.

Eight hundred to one thousand bushels to the acre, and a single specimen weighing as much as 6 lbs. 2 ozs., are some of the things this handsome Globe Onion will produce. It has a bright, clear, straw color, and invariably grows a perfect globe shape. It is by far the handsomest, most productive, most profitable, and best of all the Yellow Globe Onions. Large Onions can always be raised in a single season directly from seed. It has always brought much better prices than any other Onion; in market it never fails to attract attention on account of its beauty; on the city fruit stalls it has completely taken the place of the large Spanish Onions. The Prizetaker Onion is gifted with strong drought-resisting ability, and we consider this one of its great merits. People who wish to make money should plant the Prizetaker Onion; it is admitted by the most critical Onion growers to be the largest, finest flavored, and most superior Yellow Globe Onion under cultivation. **PKts. 5c & 10c. New Giant French Celeriac

New Giant French Celeriac

139. There is not a single item of interest in the growing and developing of seeds that we pass by, without most thoroughly investigating and testing to see if there is something of value to our cussomers. To prove our watchfulness, we are here introducing the Giant French Celeriac. Many thought the Celeriac which the Market Gardeners have had for years was good enough, but we are always on the alert for something better and are rewarded for our pains by being able to offer this splendid Improved Celeriac. It is larger, earlier, finer formed and in every way more attractive than Prague Celeriac. We are confident the Giant French Celeriac will so please the Truckers that they will plant no other kind. There is always a demand for the most attractive and finest formed Celeriac; so if you want to grow something that will attract and please your customers and make money for yourself, sow Bolgiano's Giant French Celeriac this year.

"Best of all" KOHL RABI

BOLGIANO'S "BEST OF ALL" Kohl Rabi

Our supply of Seed is very Limited this Year.

152. This exceptionally valuable New Kohl Rabi will please every one who tries it. As a matter of fact it has already won many friends among those to whom we sent samples for trial last season. It combines the best qualities of the finest varieties known. It is round like an apple with fine smooth skin. The leaves which are very few, stand erect enabling the grower to plant closer and helps him in bunching. The flesh is unsurpassed in tenderness, purity and delicious flavor. "Best of all" Kohl Rabi will not run to seed in frosty weather and remains unchanged in delicacy of flavor. It is equally valuable for forcing or for open ground culture. **Price: PKt. 5c & 10c. Oz. 25c. 2 Ozs. 40c. ¼Lb. 65c. 1/2 Lb. $1.25. Lb. $2.50.**

Bolgiano's Great Giant Salsify.

106. **Bolgiano's New Self-Blanching Endive.** In this we offer you a perfect self-blanching curled Endive, beautiful and graceful in shape, most attractive, perfect in color, shading from a large, rich golden heart to the outer leaf of emerald green. In flavor, it is mild, nutty and sweet. A market stall without this most beautiful of vegetables can never expect to merit those customers who strive to make their home table most attractive and complete. **PKts. 5c and 10c, Oz. 15c, 2 Ozs. 25c, 1/4 Lb, 40c, 1/2 Lb. 75c, Lb. $1.50.**

Bolgiano's "Great Giant" Salsify

275. By far the largest, smoothest, most tender Salsify ever sold to the trucker. Its delicious flavor and attractive appearance brings the buyers and holds their trade. It easily outsells every other Salsify, for "It is the Best." It outyields all other varieties. Truckers who have tried the "Great Giant" say it is ideal, it is the Salsify they will always grow in preference to all others, for they readily sell all they bring to market at better prices and much quicker than their neighbors. Grow the best. It pays **PKt. 10c. Oz. 15c. 2 Ozs. 25c. 1/4 Lb. 40c. 1/2 Lb. 60c. Lb. $1.00.**

Bolgiano's "Hollow Hub" Parsnip

219. As we predicted several years ago, when we first introduced the Hollow Hub Parsnip it has taken the leading place among Parsnips. Its merits alone have brought it so prominently to the front. No Parsnip seed ever offered is grown as carefully as Hollow Hub. Each individual root is **carefully selected by hand and critically examined,** if it does not come up to the highest standard it is discarded. "Hollow Hub" Parsnip is hollow crowned to a remarkable degree; it has firm tender flesh, a delicious delicate flavor, almost entirely without core. In growth it is smooth and uniform. In fact Hollow Hub Parsnip is as perfect as it is possible to produce by the most careful selection and breeding. Grow the best, it costs but little more, and it pays so much better. **Price: PKt. 5c. Oz.10c. 2 Ozs. 15c. 1/4 Lb. 20c. 1/2 Lb. 40c. Lb. 75c.**

264. Bolgiano's Extra Early Dawn Squash.

1. **TEN DAYS to TWO WEEKS earlier than any other stock of White Bush Squash.**
2. **Always brings the first FANCY PRICES of the earliest market.**
3. **Enormously Productive.**
4. **Beautiful white color, entirely free from any green cast.**
5. **Solid and heavy, with small seed cavity, making an excellent shipper.**
6. **Delicious flavor and an excellent cooker.**
7. **Growth is bushy, with absolutely no runners.**
8. **A great improvement over all other stocks.**

BOLGIANO'S STOCK OF DELICIOUS SQUASH.

Bolgiano's Stock of Delicious Squash

The kind that makes Pumpkin Pies that make your mouth water.

268. The name tells how good it is. This New Winter Squash is exceptionally fine. It is oval in form, thickest at the blossom end; skin dark grayish green, deepening to bronzy green when ripened. Large size, weighing from 5 to 10 lbs. In thickness of flesh it surpasses nearly every variety, the color of the flesh being a deep orange. For table use no Squash compares with it in its remarkable combination of fineness and compactness of grain, dryness, sweetness and exceeding richness of flavor. **Pkt. 5c, Oz. 10c, 2 Ozs. 15c, 1/4 Lb. 20c, 1/2 Lb. 40c, Lb. 75c.**

EXTRA EARLY PURPLE TOP MILAN TURNIP.

BOLGIANO'S Famous Stock Improved Curled Long Standing SPINACH.

Exceptionally Fine for Spring Sowing.

106. Of a perfect, rich, attractive green color, distinct from all other varieties, and easily recognized. Its growth is abundant, and it will retain a fresh, luxuriant appearance for three or four weeks after the most stubborn seeding varieties have become yellow and gone to seed. Your early Spring garden will be incomplete without a generous sowing of Improved Curled Long Standing Spinach. This Spinach combines the extremely curled leaf of our Bloomsdale Curled Savoy Spinach and its own unequalled long-standing qualities, with a beautiful green which will invariably draw customers your way and bring you the top prices. Our oldest and most experienced customers pronounce this Spinach the best they have ever grown for Spring, Summer, Fall, or the coldest Winter. From our careful tests we learned its merits, before we put it in the hands of the truckers; they immediately realized its value and have from year to year increased their orders until from 100 pounds five years ago, our annual sales now amount to many tons. **Oz. 5c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 25c, 5 Lbs. 75c.**

Nitro-Culture

BOLGIANO OF BALTIMORE
Sells the Original put up under the Careful Supervision of Dr. Moore

THE VEST POCKET FERTILIZER

What NITRO-CULTURE Is—NITRO CULTURE consists of nitrogen collecting Bacteria which work in the soil and on the roots of leguminous plants, having the power to collect free nitrogen from the air and supply it to the plants. All plants need nitrogen, which is very costly when obtained by chemical process. The remarkable increase of crop frequently reported and caused by inoculation is due wholly to the large amount of nitrogen collected from the air by the Bacteria.

Method of Using.—The Bacteria are furnished dried on absorbent cotton and can be readily forwarded by mail to any section of the country. Full directions accompany each package, which no farmer can have any difficulty in following out.

Value as Soil Renovator.—It has been ascertained from the most reliable sources that the average inoculated leguminous crops, such as Clover, Alfalfa, Vetch, Peas, Beans, etc., will not only under ordinary conditions show an increase of crop, but also that the Bacteria will collect from the air and leave in the soil at the end of the season after the crop is harvested, not less than 100 pounds of nitrogen per acre. This nitrogen at present market prices would be worth $15.00 and upwards per acre, and would show a corresponding increase in the next succeeding crop, no matter what it may be.

Increase of Crop.—It would be impossible for us to estimate what the increase caused by inoculation might be. Conditions vary in different sections. In some cases increases are reported to be very great, crops like Alfalfa, Clover, Vetch, Peas, Beans, etc., having been made to grow in sections where they had never been successfully grown before. We therefore, advise our customers to try the experiment and ascertain the true value of NITRO-CULTURE on their respective soils.

ALFALFA.—By means of inoculation with NITRO-CULTURE, Alfalfa is now being successfully grown from the Atlantic to the Pacific and from Canada to the Gulf.

Acid Soil.—It should be remembered that there are certain unusual conditions of the soil which will prevent the profitable growth of any crop. The use of NITRO-CULTURE is not, of course, designed to overcome such difficulties, although there is no doubt but that under these circumstances an inoculated crop will produce better results than uninoculated. If you are sure that the right Bacteria are already in your soil, inoculation is not necessary.

Gentlemen:—I mail you to-day a photograph of my field of Cow-Peas treated with your Nitro-Culture. I am standing in the field with a few plants in each hand, inoculated plants in my right hand and uninoculated in my left hand. You will see that the inoculated plants are about twice as high as uninoculated, and are well filled with pods, while the uninoculated are not yet in bloom and show not one nodule on their roots. The inoculated plants are full of nodules, very evenly distributed on all of the roots. My land is poor sand-hill land, that would not make corn at all, and very little of any other crop without heavy fertilizing. These peas were not fertilized at all, and are of the dwarf or bush variety. Very truly, George A. Kirk.

Gentlemen:—I take pleasure in stating that the seeds I bought of you last season, as well as those I have bought for the last six seasons, have given me entire satisfaction; and as I use some of most every kind of seeds that grow in the garden, it is difficult to mention all the kinds, but I would especially mention the "I. X. L." and the "Greater Baltimore" Tomatoes. They came early, and brought me $2.40 per bushel for quite a while. I trust that our dealings will be as pleasant in the future, as in the past, and wishing for you increased patronage, I am,

Gentlemen:—I have an immense crop of lima beans. If Nitro-Culture had cost $10 per acre, I would have been well pleased. I have 8600 hills and the cost of Nitro-Culture $4.00. It made my crop one week earlier, which means several times the cost of inoculation. J. W. Bradley.

COMPLETE LIST OF

Bolgiano's Standard Vegetable Seeds.

FOR EIGHTY-EIGHT YEARS WE HAVE WON CONFIDENCE—Not by chance, not by luck, but by honest, untiring efforts. Our undivided time and attention is given to growing the choicest and most reliable Seeds. We carefully select all the highest grade stocks, and eliminate those which our test gardens prove would be unprofitable for the trucker or gardener to grow. We never recommend any article unless we are certain, by actual test, it possesses merits superior to anything the trucker already has, We watch for improvement in character, shape, form, color; attractiveness and best selling qualities. These improvements we quickly note and encourage. Remember as you read through this catalogue what we say about each article has been gathered from our actual experience together with the experience of the most up-to-date and successful practical market gardeners and truckers in every part of the world.

Artichoke.

ARTICHAUT *Alcachofa* Artichoke

Jerusalem.—The tubers roasted, or boiled, served with butter, salt and pepper, makes a dish some think superior to Potatoes. They are most excellent feed for cows and will cause an increase in quantity and quality of milk. **Peck 75c, Bushel $2.00.**

Asparagus.

ASPERGE *Esparrago* Spargel

1. **New Palmetto.**—Is very early, large yielder, and very regular and even in its growth. Average bunches contain 15 shoots, measuring 13½ inches in circumference; weighs 2 pounds. It is equally well adapted for all sections. Its quality is unequalled. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**
2. **Conover's Colossal.**—A well known standard variety. **Pkt. 5c, Oz.10c, 1/4 Lb. 15c, Lb. 35c.**

Asparagus Roots.

No effort put forth in the garden will bring more pleasure and satisfaction than an established Asparagus bed, if this is thoroughly prepared according to the following directions. A bed 20 feet by 50 feet, set with 1000 two-year old roots, will last for years and furnish an abundance.

DIRECTIONS.—Select a good sandy loam, plow the ground as deep as possible, dig out 12 inches deep, put in a layer of 4 inches of good, strong stable manure, and press down; then fill in with good, rich, black loam to the top of the bed. Sow on top of bed 100 pounds kainit to 1000 square feet of bed; incorporate this thoroughly to depth of 3 inches. After leveling bed off even, stretch a line the length of bed 9 inches from the edge, and with a spade cut a furrow 8 inches deep, set a row of plants along the trench 9 inches apart, with the crowns of the roots 2 inches below the surface; then cover up, make even and plant other rows 9 inches apart.

Palmetto 2-Year Old Roots.—100, 60c. 1000, $5.00. By mail 100, 85c.
Conover's Colossal 2-Year Old Roots.—100, 45c. 1000, $4.00. By mail 100, 75c.

Beans.

We supply Packets of all Beans At 5c and 10c each, postpaid. Add 8c per Pint, 15c per Quart extra by mail. One Quart to 100 Feet of Drill. Two Bushels to the Acre.

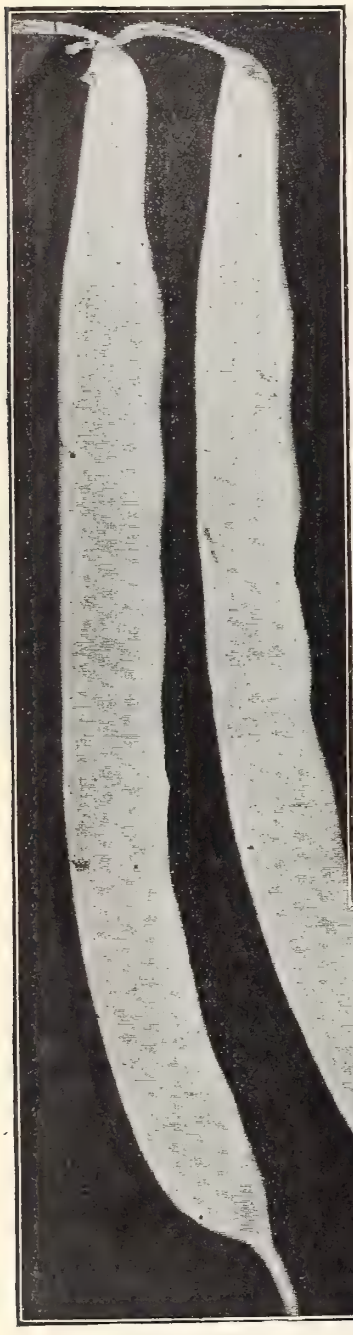

To afford a regular succession of crops, plant every two weeks, from the middle of Spring to the end of Summer, but not until the soil becomes warm, as they are very sensitive to both heat and cold. Plant in rows 18 inches apart, 2 inches deep; cultivate frequently, but only when dry, as the scattering of earth on the foliage or pods when moist, will cause them to become damaged with rust. This crop will flourish between the ridges of celery, rows of corn or cabbage, when they are first planted, as the Beans would be ready for the table before the other crops attain any size.

J. BOLGIANO & SON, Baltimore, Md. *December 18, 1905.*

Gentlemen:—The Garden Seeds I bought of you last Spring all turned out well. I had the Baltimore Cantaloupe and it was fine. The White Plume Celery Seed I got of you was extra fine, and I had the finest lot of Cucumbers I ever raised. Cabbage, Salsify, Tomatoes, and all others were fine. Send me one of your catalogues, and later on I will send you an order.

1035. **NEW "WILLOW LEAF" BUSH LIMA.**—The plants are true bush type, uniform in growth, distinct and ornamental foliage. The pods, closely resembling those of the *Wood's Bush Lima*, are well-filled with tender beans, which mature ten days to two weeks in advance of the large *Burpee's Bush Lima.* **Pt. 20c. Qt. 35c. Gal. $1.15. Pk. $2.15. Bushel $8.00.**

1036. **DREER'S NEW WONDER BUSH LIMA.**—Is a fine strain of neat dwarf growth, producing pods *a week earlier* than the regular stock of BURPEE'S BUSH LIMA. The plants are very productive and both the pods and beans are large. **Pt. 15c. Qt. 25c. Gal. 90c. Pk. $1.50. Bus. $6.00.**

1039. **BURPEE'S LARGE BUSH LIMA BEANS.**—Is an immense yielder, each bush bearing from 50 to 200 of the handsome large pods, well filled with very large beans, which are identical in size and luscious flavor to the well-known large Pole Limas, the largest and best Lima Beans can now be raised in quantity at small cost without the expense and labor attached to the use of poles. **Pt. 15c. Qt. 25c. Gal. $1.00. Pk. $1.50. Bus. $5.00.**

1037. **DREER'S BUSH LIMA BEAN.**—This bush Bean produces pods in great abundance, 185 having been counted on a single plant. It requires no poles or stakes. The Beans grow close together, 3, 4, and sometimes 5 in a pod, and very thick, sweet and succulent. It ripens fully ten days earlier than any of the pole Limas. **Pt. 15c. Qt. 25c. Gal. 90c. Pk. $1.50. Bus. $6.00.**

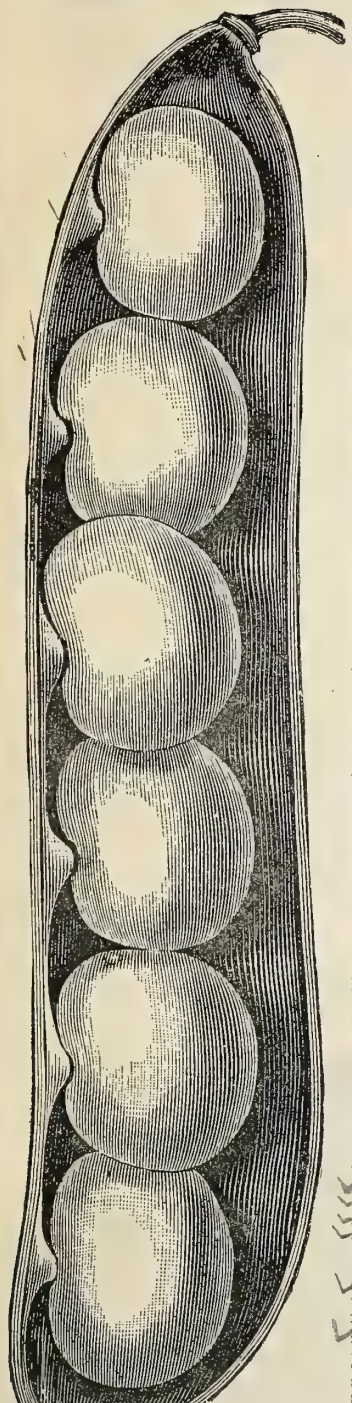

1038. **HENDERSON'S DWARF BUSH LIMA BEAN.**—Produces Beans of smaller size, is very productive and decidedly luscious. They grow 15 to 18 inches high, continue bearing until frost. **Pt. 15c. Qt. 25c. Gal. 90c. Pk. $1.50. Bus. $5.00.**

BURPEE'S BUSH LIMA BEANS

DO YOU WANT BIG CROPS? READ THIS.

Gentlemen:—I have an immense crop of lima beans. If Nitro-Culture had cost $10 per acre, I would have been pleased. I have 8600 hills and the cost of Nitro-Culture was $4.00. I know it made my crop earlier, which means the cost of innoculation. *J. W. BRADLEY, N. J.*

King of the Garden Lima Beans.

POLE LIMA BEANS.

1 Quart to 150 Hills. 10 to 12 Quarts to the Acre. We Supply Packets of Beans at 5c and 10c each, postpaid; Add 8c to Pts., 15c per Qt. if to go by Mail.

CULTURE of Pole Beans and Pole Lima Beans.—These are usually planted in hills and trained to poles, which should be 8 to 10 feet long, and firmly set in the ground from 3½ to 4 feet apart each way. Draw around them a hill of earth and plant 4 to 5 Beans to each hill, 1 inch deep, always observing to plant the eye of the Bean down. The Lima Bean is very delicate, and often fails to sprout from slight causes; they should not be planted until the ground is warm. Do not allow more than three to climb a pole, but remove extra plants to hills where less than three have sprouted.

1027. **Lazy Wife Pole, or White Cherry Bean.**—The pods, of medium dark green color, are produced in great abundance, and measure from 4½ to 6 inches in length; are broad, thick, very fleshy and entirely stringless. They retain their rich, tender and stringless qualities until nearly ripe. Each pod contains 6 to 8 round, white Beans, which make excellent Winter shell Beans. **Pt. 15c, Qt. 25c, Gal. 80c, Pk. $1.45, Bus. $5.00.**

1028. **White Creasback, or Best of All.**—The Best Early Green-Podded Pole Bean.—It is exceedingly productive. The handsome green pods grow from 5 to 6 inches long, in clusters from 4 to 12, are entirely stringless, and of superb quality. It matures extremely early. **Pt. 15c, Qt. 25c, Gal. 80c, Pk. $1.45, Bus. $5.00.**

1029. **Red Speckled Cut Short or Cornhill.**—Popular for planting among corn; pod short, cylindrical and tender; Beans nearly oblong. **Pt. 15c, Qt. 25c, Gal. 75c, Pk. $1.25, Bus. $4.50.**

1030. **Old Homestead (Improved Kentucky Wonder.)**—It is enormously productive, the pods hanging in great clusters from top to bottom of pole; are of a silvery green color and entirely stringless; they cook deliciously tender and melting. **Pt. 15c, Qt. 25c, Gal. 80c, Pk. $1.45, Bus. $5.00.**

TABLE BEETS

BETTERAVE. *Remolacha.* Galatrube.

1 Ounce to 50 Feet Drill. 5 to 6 Lbs. to Acre. PKts., Ozs. & 1/4 Lbs. Delivered Free; but Add 8c to Lbs.

Culture.—Sow as early in the Spring as the ground can be worked (5 to 6 lbs. to the acre), and every two weeks after for a succession, up to the first week of July. For general crop, sow about the middle of May. The soil should be light, sandy loam, well enriched with stable manure, and plowed and harrowed until very fine. Sow in drills 1 foot to 15 inches apart, and when well up thin from 4 to 6 inches. The young Beets, with their tops, pulled out of the row, are excellent used as Spinach.

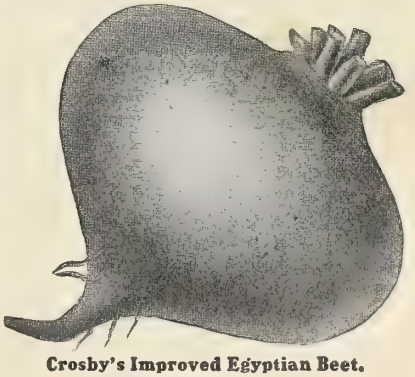

18. **Deep Blood Beauty.** (*Specialty. See page 15*). **Pkt. 5c, Oz. 10c, 1/4 Lb. 20c, Lb. 50c.**

4. **Extra Early Eclipse.**—It is remarkable for its very rapid growth, the perfection of its form—which is globular—of its beautiful crimson flesh, and for its dwarf foliage. The roots are of a bright glossy red, very fine grain and of a delicious flavor. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**

5. **Crosby's Improved Extra Early Egyptian Beet.**—Almost globular in shape, perfectly smooth with a single tap root and but a few short tops. In color, our stock is uniformly dark red. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**

Crosby's Improved Egyptian Beet.

6. **New "Crimson Globe" Beet. This is one of the best Bunching Beets yet introduced.**—The root is of medium size, of very handsome globe shape, and has a remarkably smooth surface. Both the skin and flesh are deep rich red, fine grained, sweet and tender in all stages of growth. There is a very small tap root. The leaves are small, very dark green. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**

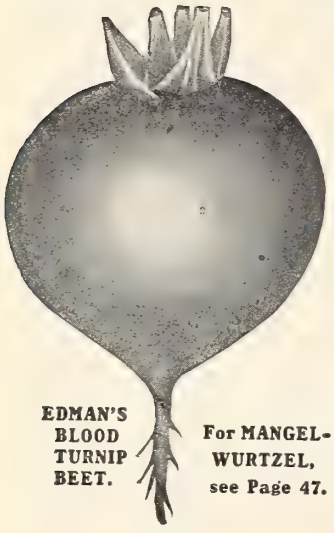

7. **Detroit Dark Red Beet.**—A very superior early Blood Turnip Beet of uniform type, deep color, medium size, fine grained and formed. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**

8. **Early Market Beet.**—It is very shapely in form, good size for market purposes, and retains all its tenderness. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 35c.**

9. **Dirigo Beet.** An excellent variety. A few days later than Eclipse, but more tender and has a smaller top. Particularly recommended for frame growing. **Packet 5c, Oz. 10c. 1/4 Lb. 15c, Lb. 35c.**

10. **Early Large Egyptian.**—Handsome shape, and does not crack open. **Packet 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 30c.**

11. **Extra Early Flat Egyptian Beet.—(Improved.)**—Does not crack open at the tops, is a deep blood red; uniform in type, has few tap roots and presents a handsome appearance when presented for sale. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 30c.**

Brussels Sprouts

CHOU DE BRUXELLES

Berza de Brusels

Kotentobl

Culture.—Sow in May, in the same manner as Cauliflower, and transplant in July, 1 foot apart in rows 1½ feet apart. In gardens, large and small, Brussel Sprout is the very best winter vegetable that can be grown. It is as hardy as the common Curled Greens. The real Sprout is not much larger than a marble, and almost as firm and hard as the stalk itself. These cooks prefer. They strip off the outer covering, cook them whole, and serve them up artistically. When cooked through and no more, such Sprouts melt in the mouth, like the tenderest Cauliflower, and are equally as good. If more widely known, Brnssels Sprouts would be as popular as it is valuable.

Early Jersey Wakefield Cabbage

Cabbage

Choicest American Grown.

Pkts., Ozs., 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

Culture.—One Ounce will produce about 2500 Plants; 1/4 pound to transplant for one acre. For very early use sow in January or February in hot-beds; put out when plants are strong enough to other hot-beds; or sow in cold frames in March; transplant when danger from killing frosts is past to the open ground, in rows 2 feet apart and 18 inches in the row. For a succession, sow in the open ground the last of March or Early in April. Autumn or Winter varieties sow in April or early in May, in shallow drills, 3 or 4 inches apart; transplant early in July, in rows 2½ feet apart and 2 feet in the row.

26.	**New Leader.** (*Specialty, Page 8.*)	10c	25c	$1.00	$3.50
28.	**Extra Early Jersey Wakefield.**—An excellent early sort. Heads form like a Wakefield, but ten days earlier; habit vigorous, short stem, and most profitable to grow	5c & 10c	15c	50c	1.50
29.	**Extra Early Pilot Cabbage.**—3 weeks earlier than Jersey Wakefield	5c & 10c	15c	50c	1.50

30. **Early Jersey Wakefield Cabbage.**—*Bolgiano's Selected Stock.*—While this sort is not so early as Bolgiano's Extra Early Express Cabbage, it will be found to be the very best conical headed sort to come in immediately after it. It heads up remarkably hard and solid, with but few outside leaves, which are unusually thick and heavy, enabling it to stand cold weather without injury when carried through the winter, either in the open ground in the South or in cold frames in the North. **Pkts. 5c & 10c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.25.**

32. **The Charleston, or Large Wakefield.**—The Best Large Early Cabbage.—This is the largest Early Cabbage, bred from the Early "Jersey" Wakefield, to meet a demand for a larger heading sort. It posseses all of the valuable characteristics of the parent, with the advantage of the heads being fifty per cent. larger, though a few days later. Our strain of the seed is very superior. **Pkts. 5c & 10c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.25.**

33. **Bolgiano's Early Large York.**—Follows Jersey Wakefield in heading. The heads are round, heart-shaped and very firm. Its dwarf growth will permit them being planted closely together. **Pkts. 5c & 10c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.25.**

34. **Early Winnigstadt.**—The Prussian Prize Stock. **Pkts. 5c & 10c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.25.**

31. **New Queen Victoria Cabbage.**—A splendid type of the very large Early Cabbage. Owing to its large frame it is often cut before maturity and outsells the smaller sorts, and is marketed at the same time. If left to fully mature, its heads become perfectly solid. **Pkts. 5c & 10c. Oz. 15c, 1/4 Lb. 50c, Lb. $1.50.**

Second Early or Summer Varieties

15. **Square-Deal.**—(Specialty, page 7.) **PKt. 10c, Oz. 35c, 1/4 Lb. $1.00. Lb. $3.50.**

35. **Bolgiano's "New Early" Cabbage.**—It forms solid, compact, round, flat heads, the leaves growing close to the head, thus allowing more cabbage to be grown to the acre than any other sort. Its earliness (a week before other early flat varieties) is one of its best marketable features. It heads so hard and so quick it becomes waterproof. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

36. **Florida Header Cabbage.**—In color, shape and size, the heads are most uniform. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

37. **All Head Early Cabbage.**—For uniformity, reliability of heading, size, earliness and quality it is very superior. Its heads grow compact and free from spreading leaves. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

38. **Henderson's Early Summer Cabbage Seed.**—In size, form, solidity and earliness, this is truly a model Cabbage. It heads just after our Jersey Wakefield. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.25.**

39. **Long Island Early Flat Dutch Cabbage.**—The heads are large and solid, and matures very early—just after the Select Jersey Wakefield, and may be marketed at the same time with the Wakefield. In every respect it is a Cabbage worthy of cultivation. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.25.**

40. **Early Drumhead Cabbage Seed.**—It is ready for marketing two or three weeks earlier than the Late Drumheads, forms large, solid, rounded heads, weighing from 15 to 25 pounds. **PKt. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

41. **Henderson's Early Succession Cabbage.**—A wonderful Cabbage for solidity, productiveness, and fine, large heads. Matures early, has handsome color and fine quality. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

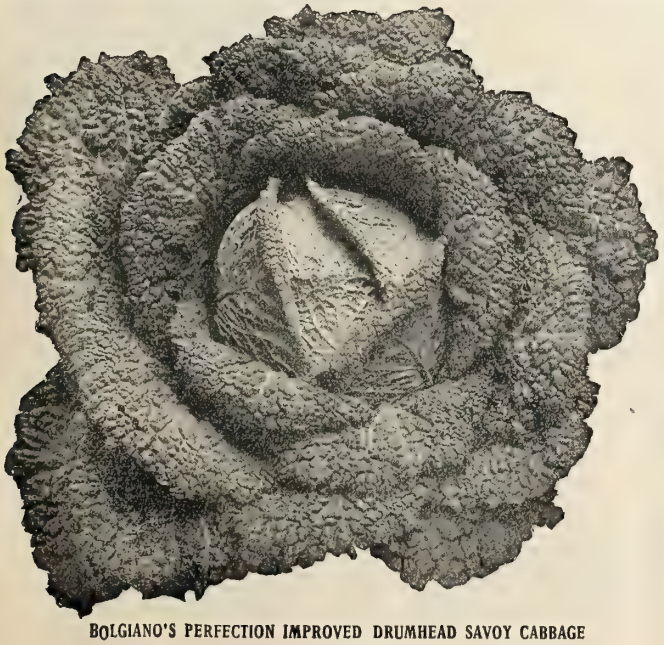

42. **Sure Head Cabbage, (Pedigree Stock).—True American Grown.**—Produces large, round, flattened heads that are all head, with few outer leaves, very uniform, firm, and weighs from 10 to 15 pounds each. Splendid shipper and of an excellent quality. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.25.**

Late or Winter Varieties

BOLGIANO'S EXTRA FLAT DUTCH

43. **Market Gardener's Choicest.**—Can be planted later than the old time varieties and matures more quickly into a handsome EXTRA LARGE, solid, uniform Cabbage of perfect keeping qualities. It has of its own superior merits become a great favorite everywhere. If you want the best Flat Dutch that grows, try Bolgiano's Extra Flat Dutch, **PKts. 5c and 10c. Oz. 20c, 1/4 Lb, 40c, Lb. $1.50.**

50. **Louisville Drumhead. (Best of all Drumhead Cabbages.)**—There is no Cabbage of the Drumhead type which can be compared with this beautiful representative, in shape, color, firmness and excellent table qualities. While not as large as some of the coarse, inferior kinds, it is of fine size, very solid and uniform. Heat and moderate drought have little effect upon it on account of the peculiarly short stem and low habit of growth, so that we recommend it for sections where late Cabbage is apt to be exposed to such condtions. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

BOLGIANO'S PERFECTION IMPROVED DRUMHEAD SAVOY CABBAGE

BOLGIANO'S EXTRA FLAT DUTCH CABBAGE

45. **The Lupton Cabbage.**—Is a splendid late sort, heading after the second early sorts and sooner than the late Flat Dutch. It is particularly uniform in size and shape, holds its dark green color better than the late sorts. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

51. **BOLGIANO'S NEW WHITE WONDER.—The Greatest 20th Century Flat Dutch Cabbage.**—Every plant makes a head, large, solid and attractive. Every seed is a storehouse; it means one thrifty plant, one compact, worm-proof, heavy head of deliciously flavored Cabbage. Experienced farmers say you are sure of your crop when you plant New White Wonder Cabbage Seed. **PKts. 5c and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. $2.50.**

44. **Boss Flat Dutch Cabbage.**—The heads are large, hard, thick and flat, the leaves lapping across the centre. **PKts. 5c. and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.25.**

46. **Premium Flat Dutch.**—It has long been the favorite sort for cold slaw and sauer-kraut. It matures just before severe frost, and keeps perfectly over winter. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. $1.00.**

47. **Large Late Drumhead Cabbage.**—This splendid Cabbage produces enormous heads. Its good keeping quality makes it a first-class sort to carry over winter or for long distance shipping. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. $1.00.**

52. **HENDERSON'S AUTUMN KING CABBAGE.—(True American Grown.)**—If you want an enormous Cabbage, the Autumn King will fill the bill. It is often from 3 to 3½ feet in circumference, and weighs from 25 to 30 pounds each. Interior crisp, close, fined grained, tender and white. **PKts. 5c and 10c, Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

48. **Armager, or Danish Bald-head Cabbage.**—This most excellent Cabbage is very solid and out-weighs any other Cabbage of equal size. The head is round, with flattened top, a good keeper, first-class shipper, and sells everywhere. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

49. **Mammoth Rock Red Dutch.**—Is the largest red Cabbage, and heads very solid, and is deep red color to the very centre. No Cabbage is better for boiling or slaw, and its beautiful red color specially fits it for pickling. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.50.**

Bolgiano's Perfection Improved Drumhead

SAVOY CABBAGE

53. There are many varieties of Savoy Cabbage, but "Bolgiano's Perfection," surpasses them all for uniformity of heads, beauty of curl, and superior keeping qualities. When truckers have failed with other stocks from severe drought and worms, Bolgiano's Perfection has pulled through all right and come out supreme, making the grower happy by bringing him good returns when Cabbages were scarce. If you try it you will say more than we have. **PKts. 5c and 10c. Oz. 15c. 1/4 Lb. 35c. Lb. $1.25.**

Cauliflower.

Blumen=Kohl.

An ounce will produce about fifteen hundred plants, and sow about forty square feet. One-half ounces furnished at ounce rates and one half pounds furnished at pound rates.

Culture of Cauliflower.—For Spring or Early Summer crops sow in March or early in April in hotbeds and transplant to cold frame when sufficiently large, and to open ground as soon as danger of hard freezing is over. The plants will endure a light frost. The soil should be made richer than is ordinarily used. Give the plants thorough culture and keep free from worms with Slug Shot Insect Powder. For late crops sow at same time as for late Cabbage; treat in the same manner. It should be borne in mind that Cauliflower WILL NOT head up well in hot, dry weather, and hence sowing should be so regulated as to bring it to maturity before the hot Summer sets in or not until cooler Fall. Water liberally; the size and quality of the heads will be greatly improved. After the heads begin to form, draw leaves over and pin or tie them together to protect the head from the sun.

55. **Earliest Snow Ball Cauliflower.**—Our Snow Ball Cauliflower is the earliest, most hardy, and, in fact, the Cauliflower that you can plant, and expect a crop of true, firm, snow-white heads. You cannot get better Snowball Cauliflower Seed, no matter what price you pay. There is but one stock of Cauliflower that is better and that is Bolgiano's New Century Cauliflower. Many of the beautiful, shapely heads measure from 10 to 12 inches in diameter. Our Cauliflower Seed is saved only from absolutely perfect plants and is grown by the most experienced and critical growers in localities best suited for its perfect development. Best for forcing; best for wintering over early crop. Every plant will produce a fine head. **Pkt. 5c, 10c & 25c. 1/2 Oz. 65c. Oz. $1.25. 1/4 Lb. $4.00. Lb. $15.00.**

1 Oz. Will Sow a Row 100 Feet Long, 4 Lbs. to the Acre.

Pkts., Ozs. and 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

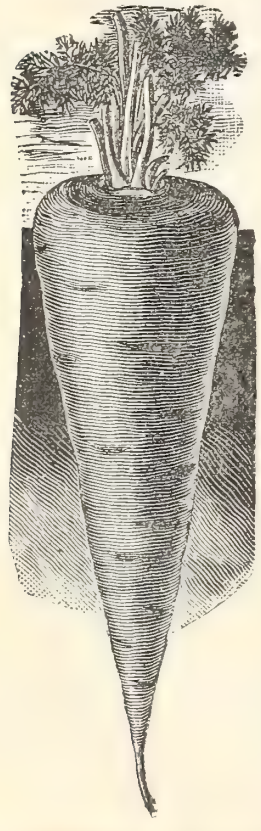

Culture.—Carrots to grow to perfection require a deep, rich, sandy loam, well pulverized and deeply cultivated. For an early crop sow in May and June in drills about 1 foot apart thinning out to 4 inches in the row; sow for Winter crop in June and July. It is important to tread the rows firmly after sowing seed.

EARLY OX-HEART CARROT

Cyclone Up-to-Date Bug Exterminators.

Who does not hate the job of killing the bugs by any of the old methods? And just think of the loads of water required! Contrast these old methods with the new. These **Bug Exterminators** weigh only one pound, and one pound more when ready for use. You put your Paris Green up in papers, as doctors do their powder, one-half teaspoonful in each, and take a dozen powders and a bucket of water to the field, and you have ammunition enough to kill the bugs on a couple of acres of potatoes. You do the work at a moderate walk. Only one shot at each hill and the whole plant, stalk, stems, and the upper and lower sides of the leaves are treated in such a perfect manner as to kill every bug, **while it is impossible to injure the foliage.** The people who have used these Exterminators in the past, saved their crops, because the work was so light and done so quickly that there was no excuse for neglecting the job. Killing the bugs is not one of the easiest jobs on the farm. Don't put off getting a machine until your crop is half ruined. Begin early. With these **Bug Exterminators** you can kill the hard-shell potato bugs as readily as the soft ones. By beginning early you save the trouble of killing millions later, and all the vitality of your crop is saved. These machines combine some features not possessed by other similar machines that have been put upon the market, and which makes them superior to all others.

CELERY

CELERI *Apios* Sellerie

CULTURE.—One ounce will produce about twenty-five hundred plants and sow about two hundred feet of row. Sow the last of March or early in April, in an open border, in rich mellow ground in shallow drills, watering freely in dry weather. By rolling or pressing in the seed, the result will be more satisfactory than when only covered. Cut the tops off once or twice before planting out, to make them stocky. When the plants are 5 or 6 inches high, transplant the dwarf varieties 3 feet and the taller sort 4 feet between the rows; plant 6 inches apart in the rows. Cultivate well and when large enough, blanch by earthing up. The first operation is that of "handling," generally done by the beginning of September. After the soil has been drawn up with the hoe, it is drawn around each plant by the hand to keep the leaves firm in an upright position and prevent spreading. When the plants have become "set" in an upright position and the Celery is wanted for early use, they should be "banked." This is done by throwing the soil up as close to the plants as possible with a plow and finishing it with a spade, bringing the earth up nearly to the tops of the plants. The method employed now for protecting is by covering the tops of the banks with water-proof felt paper.

CRESS

CRESSON *Berro o Mastuerzo* Kresse

CULTURE.—Sow curled or pepper grass thickly, in shallow drills, every two or three weeks. It should be cut often, and it will continue to grow. It is useful not only for salad, but for the breakfast table and for garnishing.

520. **True Water Cress.**—Should be sown in damp soil; or if a stream of water can be utilized, they would be much finer. They will also thrive well in damp hotbeds. Rightly managed, their culture is very profitable. To obtain early salad it is a good plan to sow with Water-Cress seed a strip four inches wide on the outer margin of a hotbed, inside the frame, where it is always cool. **Pkt. 5c and 10. Corn, Sweet or Sugar.

We supply Packets of Sweet Corn at 5c and 10c each, postpaid. On Pints and Quarts, add 12c Quart postage.

Culture of Corn.—The Sweet or Sugar varieties, being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm. For a succession, continued planting every two weeks until the middle of July, in rich, well-manured ground, in hills 3 feet apart each way, covering about half an inch, and thin out to three plants to a hill. Hoe often and draw soil up to the stem; break off side shoots. The extra early varieties can be planted 18 inches in the row and 2½ feet between the rows.

EXTRA EARLY.

1051. **Double XX Extra Early Adams' Sweet Corn.**—Two weeks earlier than Extra Early Adams', large ears completely filled with 10 to 14 straight, even rows of snowy white deep grains. **Per Ear 5c, Doz. 25c, Pt. 10c, Qt. 15c, Gal. 30c, PK. 50c, Bus. $1.50.**
1052. **Adams' Extra Early.**—A splendid early variety, largely grown for early market. **Per Ear 5c, Doz. 25c, Pt. 10c, Qt. 15c, Gal. 30c, PK. 50c, Bus. $1.50.**
1053. **Second Early Adams' Corn.**—Ears are all larger and later than Adams' Extra Early. **Per Ear 5c, Doz. 25c, Pt. 10c, Qt. 15c, Gal. 30c, PK. 50c, Bus. $1.50.**
1050. **Gillespie's First Early Neck Corn.**—The VERY FIRST GOOD SIZE CORN that can be brought to the market. It is so hardy that it can readily be planted as soon as the ground is in good working order, and will, from the day of its germination, hurry forward to meet the early demand for fresh Corn, which is always very keen and causes this delicious, attractive and superior Corn to bring profitable prices. **Per Ear 5c, Doz. 25c, Pt. 10c, Qt. 15c, Gal. 30c, PK. 50c, Bus. $1.50.**
1049. **White Cob 65-Day Corn.**—(Specialty. See Page 14.) **Per Ear 5c, Doz. 40c, Pt. 10c, Qt. 15c, Gal. 40c, PK. 75c, Bus. $2.50.**
1054. **Red Cob 90-Day Corn.**—This Corn meets a long-felt want, because it suits the retail market sales, and when fully matured makes a first-class CROP Corn for feeding stock. The ear is large, handsome, suits for an early crop or for a late crop, because it matures in 90 days. This makes it always a safe and profitable crop. **Per Ear 5c, Doz. 35c, Pt. 10c, Qt. 15c, Gal. 30c, PK. 50c, Bus. $1.50.**
1115. **Premo 60-Day Corn.**—Experts pronounce this Corn to be from 5 to 7 days earlier than any other Sugar Corn in existence. It is superior to many leading early varieties in quality, size and yield. Can be planted as early as the Adams' for the young plants withstand slight frosts. Stalks grow 5 feet high and usually bear two well developed ears to a stalk. **Pt. 10c, Qt. 20c, Gal. 60c, PK. $1.00, Bus. $3.50.**
1055. **Early Minnesota.**—Ears larger than the CORY and matures between that variety and the CROSBY. Eight rows of quite large, sweet grains. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 85c, Bus. $3.00.**
1058½. **Metropolitan.**—Large, handsome ears of fine quality; very early. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 55c, PK. $1.00, Bus. $3.50.**
1057. **Mammoth White Cory Sweet Corn.**—Produces ears 7 to 8 inches long; 12 rowed; white-cobbed and covered with very large white grains of extra quality. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 85c, Bus. $3.00.**

SECOND EARLY, or INTERMEDIATE.

1058. **Early Champion.**—Very large ears considering its earliness. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 85c, Bus. $3.00.**
1056. **Crosby.**—Matures after Minnesota; fair-sized ears of good quality. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 75c, Bus. $2.50.**
1059. **Earliest Sheffield Sugar Corn.**—Planted early as Adams'. It will stand slight frosts, makes a strong, vigorous growth, with abundant foliage, growing about 5 feet, bearing usually 2 ears of handsome appearance, entirely free from smoot, grains of medium size, arranged in 10 or 12 rows, well filled to the end of the cob; exceptionally fine flavored and juicy. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 85c, Bus. $3.00.**
1060. **Extra Early Evergreen.**—Ears are like Evergreen—very large, with about 18 irregular rows and a very long grain of the best quality; remains in condition for use longer than any other sorts, exceeding the Stowell's in this respect; plant and ear would be pronounced by observers to be a fine stock of the old variety, though fit for use one to two weeks earlier. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 85c, Bus. $3.00.**
1061. **Early Mammoth Sugar.**—Market Gardener's favorite. Two weeks earlier than the late Mammoth; sweet, delicate flavor, producing a large ear and a small size cob, which fills out to the end perfectly. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 75c, Bus. $2.50.**
1068. **Peep-o-Day.**—(Specialty. See Page 14.) **PKts. 5c and 10c, Pt. 15c, Qt. 25c, Gal. 80c, PK. $1.50.**

1067. **Stowell Evergreen.**—The truest strain of this leader of all Corns is in our possession. The most critical and experienced Sugar Corn experts annually secure their supply of Stowell's Evergreen Corn from us. The ears are of a large size, grains deep, exceptionally tender and sugary. It remains longer in a first-class marketable condition than any other variety. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 40c, PK. 75c, Bus. $2.50.**
522. **Hickox Improved.**—Handsome ears, very white and of rich flavor. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 75c, Bus. $2.50.**

LATE CROP.

1062. **Large Late Mammoth Sugar.**—Largest of all sugar varieties. Producing perfect ears of immense size, having from 12 to 16 rows. A fine market variety. Sweet and delicious. **Per Ear 5c, Doz. 50c, Pt. 10c, Qt. 15c, Gal. 50c, PK. 75c, Bus. $2.50.**
1063. **Black Mexican.**—Very sweet and of superior flavor; seeds black. **Per Ear 5c, Doz. 50c, Pt. 15c, Qt. 25c, Gal. 50, PK. 75c,**
523. **Ne Plus Ultra, or Shoe Peg.**—Small, but one of the sweetest sorts. **Per Ear 5c, Doz. 50c, Pt. 15c, Qt. 25c, Gal. 50c, PK. 75c, Bus. $2.50.**

The "Triumph" Caponizing Set

There is no doubt in the minds of up-to-date poultrymen as to the advantages of caponizing. The operation is very simple, and with a "Triumph Caponizing Set" any boy twelve years of age can perform it with safety and thoroughness. Capons, as anyone knows, sell on the market as a rule from five to eight cents per pound higher than any other chickens. The demand for capons is always good, is steadily growing, and at this time a better market is assured the producer in this field than any other. Now is the time to get into the caponizing business, and the first thing to start right is to buy a "Triumph Caponizing Set." No more efficient, simple or more easily operated set is being offered the craft today than the Triumph, and you will make no mistake by selecting the Triumph set.

Cucumber.

CULTURE.—For very early Cucumbers, sow first of April in hot-bed, upon pieces of sod (grass side down), so that they can be readily transplanted to open ground, in rich soil, when danger of frost is over, or protect by hand glasses. For early use plant, if weather has become settled and warm, in hills about 4 feet apart each way; thin out to 4 of the strongest plants to each hill after all danger from insects is over. For pickles, plant from June until the middle of July.

1 Oz. to 50 Hills; 2 to 3 Lbs. in Hills for an Acre. **Pkts., Ozs. and 1/4 Lbs. delivered free by mail, but add 8c. to Lbs.**

87. **Thomas' Perfection Early White Spine.**—A selection from the famous Arlington White Spine. It is regarded as far superior to that variety; can be grown either for forcing in frames or for out-door culture; of a regular form, dark green color and very productive; is a good shipper. **Pkts. 5c and 10c, Oz. 15c, 1/4 Lb. 30c, Lb. $1.00.**

Eggplant.

AUBERGINE *Berengena* Eierpflanze

1 Oz. will produce 500 Plants.

Pkts., Ozs. and 1/4 Lbs. delivered free by mail, add 8c to Lbs.

Culture.—Sow in hotbeds very early in Spring and transplant when 2 inches high into a second bed or into small pots. If this is not done, thin to 4 inches apart. Do not plant out until weather has become perfectly settled and warm. Cool nights or wet weather will check them. Keep some back in frames for a second planting, in case of weather changing unexpectedly. Set out plants 3 feet by 2.

103. **Bolgiano's Improved Large Purple Eggplant.**—Perfect stock of Improved Large Purple Egg Plant—purer, truer and better than has ever been offered before. It has a handsome shape, a fine dark purple color, beautiful form, large size and is uniform, making it most attractive for shipping and market use **Pkts. 5c and 10c. Oz, 25c, 1/4 Lb. 75c, Lb. $2.50.**

101. **New York Improved Eggplant (Spineless).**—A vigorous grower; fruit large, fine, free from thorns, and produced until frost; skin of a rich purple; flesh white and of rich flavor. We can highly recommend our carefully selected strain of this Eggplant to market gardeners and amateurs. **Pkts. 5c and 10c. Oz. 25c, 1/4 Lb. 75c, Lb. $2.50.**

104. **New Orleans Eggplant.**—Large, dark purple or New Orleans market. Severest droughts it fruits abundantly, and its strong, erect plants lift the fruit too high for injury during a rainy spell. In form, handsome; size, large; color, dark purple; and it outyields all other sorts surprisingly. They are good shippers, carry well and remain firm. **Pkts. 5c and 10c, Oz. 30c, 1/4 Lb. $1.00; Lb. $3.50.**

ENDIVE.

CHICOREE *Escarola o Endivia* Endivie

1 Oz. to 150 feet of Row.

Culture.—Sow in June, July and August; cover lightly; when up, thin out to 8 inches apart and water well afterward, if dry. When the leaves are 6 or 8 inches long, blanch by gathering in the hand and tying together near the top with yarn or bast. This must be done when quite dry, or they will rot. At the approach of Winter, take up carefully, with a ball of earth to each plant, and place close together in frame or cellar for use. They must be kept dry and have plenty of air or they will rot.

106. **Bolgiano's New Self-Blanching Endive.**—(Specialty. See Page 19.) **Pkts. 5c and 10c. Oz. 15c, 1/4 Lb. 40c, Lb. $1.50.**

BOLGIANO'S IMPROVED LARGE PURPLE EGGPLANT.

KALE. Chou vert Frise *Col* Krauskohl

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

Culture.—Kales are more hardy than Cabbage and make excellent greens for Winter and Spring use, being improved by frost. Sow from May to June; cultivate same as Cabbage.

Bore Cole, or Kale Spargel Kohl

113. The most salable, delicious and tender of all Winter Kales. About Baltimore, it is sown in May and transplanted like Cabbage to stand over Winter. It is taller than the extra dwarf varieties and when the leaves are stripped, or fall off, new tender leaves quickly grow out. Then they are again stripped off and used for marketing. It will stand the coldest Winter. Besides being a delicious vegetable, it has always been an exceptionally profitable crop, bringing in money during the Winter months when mostly all vegetables are scarce. **Pkts. 5c and 10c, Oz. 40c, 2 Ozs. 65c, 1/4 Lb. $1.25, Lb. $1.50.**

112. **Extra Dwarf Green Curled Scotch, or Norfolk Kale.**—One of the best Kales for Spring sowing in the North; the principal sort grown South for Northern markets; hardy, and will remain over Winter where temperature does not go below zero. Very dwarf and spreading, rarely exceeding 18 inches in height. Leaves are a bright green color, beautifully curled and produced in great abundance. **Pkt. 5c, Oz. 10c, 1/4 Lb. 20c, Lb. 50c.**

108. **New Imperial, Very Curly, Long Standing Kale.**—Beautifully curled and crimpled sort; strong, vigorous habit, perfectly hardy, bright green color; very attractive in appearance; superior to all late sorts; will stand longer without shooting to seed than any other variety. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 40c.**

109. **Curled German Kale.**—Hardy; stands the frost of our severest Winters; grows rapidly, dwarf habit; beautifully curled. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 40c.**

110. **Siberian Curled.—Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 40c.**

Leek. Poireau *Puerro* Porro

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c for Lbs.

Culture.—Sow very early in the Spring in drills 6 inches apart and 1 inch deep. Thin out to 1 inch. When about 7 inches high, transplant them in rows 12 inches apart and as deep as possible, but do not cover the young center leaves. Water thoroughly, if dry when planted out. Draw earth up to them as they grow; rich soil is required. Take up and store in earth in a cool cellar before Winter weather. The seeds may also be sown in September, and the young plants transplanted in Spring to where they are to remain.

LETTUCE Laitue *Lechuga* Salat

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs.

One Ounce to 1000 Plants; Two Pounds to the Acre.

Culture of Lettuce.—Sow the seed in hot-beds in February or March, and transplant into a sheltering border with a Southern exposure. For successive crops, sowing may be made in the open ground as early as the Spring opens and continuing until July. Always thin out well or plants will not be strong. When wanted as a cut salad, sow the seed thickly in rows or broadcast.

122. **Improved White Loaf Lettuce.**—After the most careful cultivation and rogueing, we have established the truest and most uniform strain of Improved White Loaf Lettuce. It is planted largely in the Fall and allowed to remain in the open ground all Winter. In the earliest Spring it quickly forms most delicious, large, light-colored Lettuce Heads. As a frame Lettuce it has no equal; often 18 heads have brought $2.50 wholesale. If planted in early Spring, it quickly forms heads and can be brought to market long before other Lettuce. **Pkts. 5c and 10c, Oz. 15c, 1/4 Lb. 35c, Lb. $1.00.**

119.—**Bolgiano's Farmer's Pride Lettuce.**—MASSIVE, yet graceful as a rose and solid as a rock. Farmer's Pride Lettuce is an absolute necessity to any wide-awake up-to date grower of Vegetables. Sow the seed any time in the year you wish; your crop will be the finest you ever grew. Order at once. **Pkts. 5c and 10c, Oz. 10c, 1/4 Lb. 35c, Lb. $1.25.**

127. **Bolgiano's New Golden Heart Lettuce.**—Early, large, handsome, most attractive, light color, tender, crisp, solid, compact, with a sweet nutty, golden-yellow heart. It matures at any season and will grow on rich or poor land. **Pkts. 5c and 10c, Oz. 10c, 1/4 Lb. 35c, Lb. $1.25.**

J. BOLGIANO & SON. June 23, 1905.

Bolgiano's Celebrated Big Head Lettuce.

125. **Golden Queen.**—One of the best *first early* head Lettuces for either open ground or frame culture, and a good forcer; medium-sized, solid; golden yellow heads, crisp and tender. **PKts. 5c and 10c, Oz. 15c, 1/4 Lb. 35c, Lb. $1.15.**

131. **Immensity Lettuce.**—The largest Head Lettuce in the world; often from 4 to 5 feet in circumference, and as good as it is large. **PKts. 5c & 10c, Oz. 10c, 1/4 Lb. 25c, Lb. 85c.**

129. **Vaughan's "All Seasons."**—A handsome, very large, solid head; leaves a beautiful light green and the inner ones are very tender, crisp, and a beautiful golden color. It goes to seed very slowly. **PKts. 5c & 10c, Oz. 15c, 1/4 Lb. 35c, Lb. $1.00.**

130. **Philadelphia Early White Summer Cabbage.**—A large heading variety. **PKts. 5c & 10c, Oz. 10c, 1/4 Lb. 25c, Lb. 70c.**

155. **New Lettuce "Unrivalled."**—An improvement on the famous Big Boston Lettuce; possessing all the good qualities of this kind, viz: Earliness, large size, attractive color, etc. It can be sown almost the whole year around; it resists the summer heat remarkably well, is crisp and solid. **PKts. 5c & 10c, Oz. 10c, 1/4 Lb. 25c, Lb. 90c.**

120. **Tait's Imperial Cabbage Lettuce.**—Some of the most successful growers in the vicinity of Norfolk prefer it to any other sort. The leaves are thick, crisp and stiff, and carry well in shipment. Color bright green and holds well after cutting. As an open air Lettuce, it is unexcelled for endurance of extreme cold, and yield per acre. **PKts. 5c & 10c, Oz. 15c, 1/4 Lb. 50c, Lb. $1.50.**

123. **Paris White Cos,--Self-Folding.**—Grows to very large size, producing long-pointed compact bunches. The interior is well blanched. **PKts. 5c & 10c, Oz. 10c, 1/4 Lb. 25c, Lb. 80c.**

Mess. J. Bolgiano & Son, Baltimore, Md. *October 20, 1905.*

It gives me great pleasure to add my testimonial to the most excellent qualities of your Cold Mountain Spring Water Melon. I have tried this variety this year and it proved to be the earliest I have ever known. It is a good yielder, of excellent quality, as well as a good keeper. I will grow no other hereafter.

Yours truly, *Chas. S. Grason, St. Inigoes, Md.*

PARIS WHITE COS LETTUCE.

Melon.--Cantaloupe.

PKts., Ozs. and 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

Culture.—Select a light, sandy, rich soil, and after all danger of frosts is over, and the ground has become warm and dry, plant in hills 4 to 6 feet apart each way, 6 to 12 seeds to a hill. When up, and all danger of insects has passed, pull out all but 3 plants. Cultivate until the vines cover the ground, and pinch the ends of the growing shoots to induce early fruiting. Ashes, lime, or even dry road dust, is excellent to sift over young plants when the dew is on, to prevent the attacks of insects. A few hills for early use may be had by sowing in hotbeds, on pieces of sod or in pots. The seed may also be started out of doors under hand frames or in glasses. It is quite important that the proper soil be selected for growing Cantaloupes.

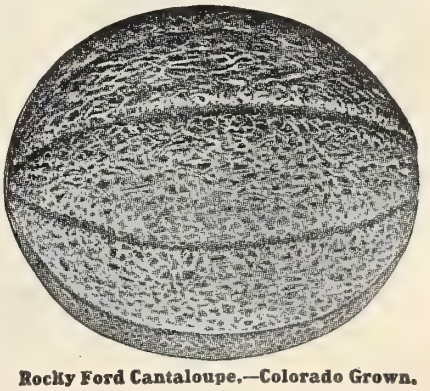

16. **"Junior" Rocky Ford.**—A little larger, two weeks earlier and twice as prolific as Rocky Ford. (Specialty, see page 5). **Pkt. 10c, Oz. 40c, 1/4 Lb. $1.25, Lb. $5.00.**

158. **Free Lunch Cantaloupe.**—Novelty 1905.—Large, yellow-fleshed, thick, firm and juicy. Melon dark green and gold in color. Should be in every home garden. Shippers should try it. **PKts. 5c and 10c, Oz. 25c, 1/4 Lb. $1.25, Lb. $2.50.**

159. **Sweet Home Cantaloupe.**—This most remarkable, large, oblong, beautifully ribbed and netted melon possesses the QUALITY OF RAPID GROWTH, maturing its large handsome fruit almost as early as the Jenny Lind. Flesh very thick, light green, and flavor sweet and luscious beyond description. **PKts. 5c and 10c, Oz. 15c, 1/4 Lb. 25c, Lb. 75c.**

111. **Norfolk Button.**—Having obtained seed from the originators of this valued, popular melon, we are prepared to offer you an article that is true to name and of superior quality. It resembles the Jenny Lind, but is much earlier, with very thick flesh of exceptionally delicious quality. **Pkt. 5c & 10c, Oz. 10c, 1/4 Lb. 25c, Lb. 75c.**

175. **Luscious Favorite Watermelon.**—It is vigorous and productive. The outer color is very bright, being a beautiful mottled light green. The rind is thin and tough, and stands shipping perfectly; it is an excellent keeper, and improves in quality after ripening. It has an attractive shape; flesh is a light, vivid red in color, and very solid, crisp, tender, melting and sweet. The flavor is exquisite, possessing not only the ordinary sweetness, but a luscious flavor not to be found in other sorts. Every grower who gives this Melon a trial will be thoroughly convinced of its superior merits. **Pkt. 5c, Oz. 10c, 1/4 Lb. 25c, Lb. 75c.**

172. **Cannon Ball Watermelon.**—It is enormously productive, with rich, dark green skin, remarkably uniform in size, and its shipping qualities are phenomenal. **Pkt. 5c, Oz. 10c, 1/4 Lb. 30c, Lb. 75c.**

IMPROVED FLORIDA FAVORITE WATERMELON.

173. **Cole's Early Watermelon.**—Succeeding in Northern States, where Melons were never matured before. The flesh is a beautiful bright red color, crisp and extremely delicate in texture. MUSTARD.

CULTURE.—Sow thickly during early spring, in shallow drills, and press the earth well down. For fall salad, sow in September, or in frames or boxes during winter.

203. **Southern Giant Curled.** An improved variety, sweet flavor, pungent and succulent. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 50c.**

204. **OSTRICH PLUME MUSTARD. The most desirable and most ornamental Mustard.**—It is distinct from any other variety now in cultivation. The plants are of vigorous growth, and the beautiful dark green leaves curve outwardly like a fine ostrich plume. The edges are as thoroughly curled and laciniated as the best double curled parsley, making the leaves equally as desirable for garnishing. So attractive is the habit of growth and the feathery effect of the finely fringed leaves that this plant is quite worthy of a place in the garden as an ornamental border plant, aside from its utility as a salad or boiling green. It is more productive than any other variety from early Spring sowings, and also more stubborn in running to seed. It stands well, even during the hot summer months, while the young leaves can be cut quite as early as those of other sorts. **Pkt. 5c Oz. 10c, 1/4 Lb. 30c, Lb. $1.00.**

Mushroom Spawn

Blanc de Champignon *Seta* *Champignonbrut*

Bolgiano's Imperial Dwarf Short Podded Okra.

CULTURE.—Mushrooms may be grown in cellars, under benches of greenhouses, or in sheds, wherever the temperature of 50 degrees can be kept up through the winter. The beds should be made from November to February, according to the time the Mushrooms are wanted, and it requires about two months for them to begin bearing. Secure fresh horse-dung, free from straw and litter, and mix an equal bulk of loam from an old pasture with it. Keep this under cover, taking care to turn it every day to prevent heating, until the pile is large enough to make a bed of the required size. Three or four feet wide, eight inches deep and any length desired, are the proper proportions for a bed; but these may be varied. Prepare the mixture of loam and manure, making the bed in layers, and pounding down each with the back of the spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way, into which put pieces of the spawn 2 or 3 inches in diameter; fill up the holes with compost, and at the expiration of a week or 10 days the spawn will have thoroughly diffused itself through the bed. Spread a layer of fresh soil over the heap to the depth of 2 inches, and cover with 3 or 4 inches of hay, straw or litter. Examine the bed often to see that it does not get dry. Take special care, however, when water is given, that it be at a temperature of about 100 degrees.

Pure Culture Mushroom Spawn.—The superiority of Pure Culture Spawn results from the improved methods and expert judgment used in making our stock cultures, giving the following advantages: (1) All the advantages of a "Virgin Spawn." (2) Superior varieties, that is, varieties giving greater yields and better Mushrooms. (3) Complete elimination of any "chance" of having spent spawn or spawn from poor sorts.....

Bolgiano's English Mill Track Spawn.—Frequent importations by us insure its being fresh and the "mycelium" alive. It comes in bricks weighing about 1¼ lbs., enough to plant a bed 9 square feet.....

We annually grow thousands of bushels of the Choicest Onion Sets. The enormous increased demand which we have had from year to year has permitted us to greatly increase our facilities for growing and handling **Recleaned Onion Sets.** This demand is sufficient proof that our choice Re-cleaned Onion Sets are pleasing our customers and attracting the attention of their neighbors and other growers. We grow and sell more choice re-cleaned Onion Sets than any other house in the Southern States, and each year for five consecutive years we have doubled our acreage. We prefer to sell by weight because we have found by long experience that it is by far the most satisfactory, and the customer knows just exactly what he buys. Whereas if he buys by measure he will find every person has a different idea of what a bushel really is. Therefore, to always have a satisfactory understanding with our customer, we give a weighed bushel of 32 lbs.

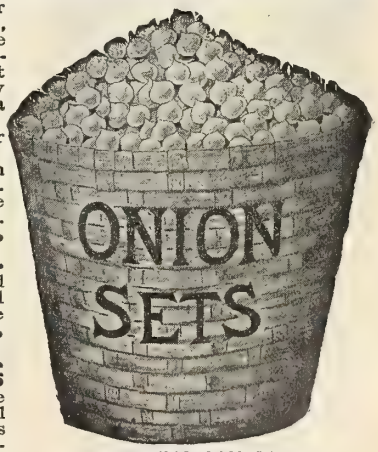

White Silver Skin Onion Sets. Choice Re-cleaned.—Grown from our choice strain of White Silver Skin or Portugal Seed. **Pt. 15c, Qt. 25c, 1/2 PK. 50c, PK. $1.00, Bus. $3.50.**

Yellow Onion Sets. Choice Re-cleaned.—Grown from our choice strain of Yellow Strasburg, or Dutch Onion. They will produce handsome, well ripened bulbs of large size quite early in the Summer. **Pt. 10c, Qt. 15c, 1/2 PK. 40c, PK. 75c, Bus. $2.50.**

Large Red Wethersfield. Choicest Re-cleaned.—Grown from seed of our celebrated strain of Red Wethersfield Onion. One of the best red Onions. **Pt. 10c, Qt. 15c, 1/2 PK. 40c, PK. 75c, Bus. $2.50.**

MARKET GARDENERS, FARMERS' CLUBS and INSTITUTES wanting to purchase seeds in large quantities should write for special prices. Onion. OIGNON - *Cebolla* - Swiebel

Pkts., Ozs. & 1/4 Lbs. Delivered Free, but Add 8c to Lbs.

CULTURE OF ONION SEED.—Oz. to 100 feet of Drill; 6 Lbs. to the Acre.—Use any good soil, preferably a rich sandy loam, previously cultivated. Fertilize liberally with rotted manure or with artificial manures. Drill in seed to depth of ½ inch, at the rate of 4 or 5 pounds to the acre for large Onions; 60 to 80 pounds per acre for Sets, or use Sets at the rate of 6 to 10 bushels to the acre, or start Onion Seed in frames, under glass, and transplant to open ground 3 inches apart in the row. This excellent plan is often referred to as the "new Onion culture." Onions are quite hardy and may be planted early. The soil may be used year after year, without rotation of crops, if well fertilized annually. Winter storage demands dryness, coolness, good ventilation and freedom from sudden changes. Spread 18 inches of straw on barn or garret floor, then 6 to 10 inches of Onions; then 2 feet of straw; or keep on shelves in a dry, cool cellar. Set large Onions in open ground in September; protect with litter during Winter.

204. **White Silver Skin Onion.**—(Specialty. See page 18.) **Packet 5c and 10c, Oz. 15c, 2 Ozs. 25c, 1/4 Lb. 50c, Lb. $1.50.**

206. **Bolgiano's Superior Yellow Globe Danvers Onion.**—Has handsome form, with very thick bulb and small neck; very early; enormous cropper; keeps perfectly, and is a market favorite of large size; remarkably solid and heavy; is one of the safest, surest keepers. **Pkt. 5c, Oz. 10c, 1/4 Lb. 40c, Lb. $1.50.**

207. **Southport Large Red Globe Onion.**—Produces large, handsome, globe-shaped bulbs from the seed the first season; are excellent keepers; have glossy purplish-red skin; mature a little later than Red Wethersfields. Fine grained, mild and tender. **Pkt. 5c, Oz. 10c, 1/4 Lb. 30c, Lb. $1.00.**

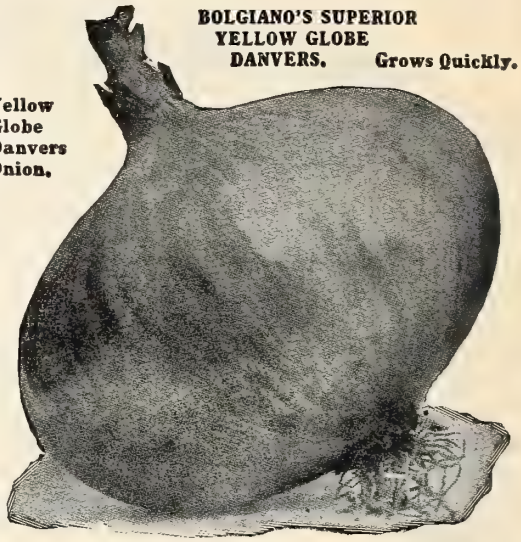

208. **Southport Large White Globe Onion.**—Produced from seed the first year. Flesh firm, fine grained, of mild flavor; an excellent keeper; has beautiful form and clear, white skin. **Pkts. 5c and 10c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.50.**

209. **Southport Large Yellow Globe.**—Produces bulbs more perfectly globe-shaped and larger than Globe Danvers, but later in ripening; excellent keeper; easily grown from seed the first year, has a beautiful, pale, straw-colored skin; is a heavy cropper, handsome in appearance, large size. **Pkt. 5c, Oz. 10c, 1/4 Lb. 30c, Lb. $1.00.**

211. **Large White Portugal.**—The standard large flat variety. **Pkt. 5c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.50.**

213. **Mammoth Silver King.**—The large bulbs are of attractive form, flattened but quite thick through; the average diameter is from 5 to 7 inches; single bulbs often attaining a weight of from 2 to 3 pounds each. The thin skin is a clear, silvery white; flesh snow white, sweet and tender. They grow quickly and mature quite early. **Pkt. 5c, Oz. 15c, 1/4 Lb. 40c, Lb. $1.50.**

210. **Extra Early Pearl Onion, or White Queen.—Finest American Seed.**—Enormous size; grows full-sized roots from seed the first season; skin pure white waxy color, flesh snowy white, delicate and tender. Often grow 6 inches in diameter and weigh 3 pounds; valued as a very early sort. **Pkts. 5c and 10c, Oz. 15c, 1/4 Lb. 40c. Lb. $1.50.**

BOLGIANO'S SUPERIOR YELLOW GLOBE DANVERS. Grows Quickly.

Yellow Globe Danvers Onion.

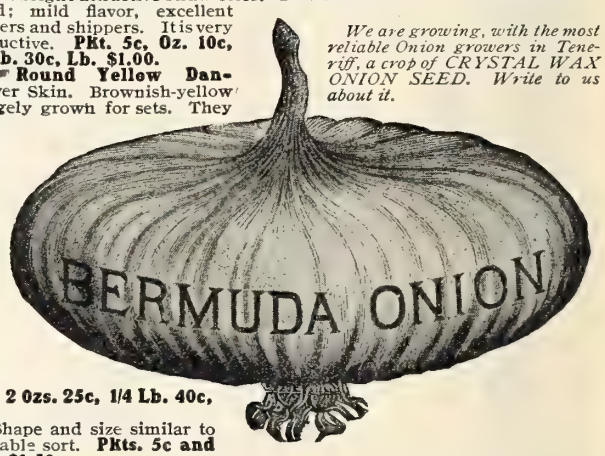

214. **Extra Early Long-Keeping Australian Brown Onion.**—Solid and most attractive. Produces good-sized Onions weeks earlier than the Red Wethersfield. Skin is a clear amber brown. **Pkts. 5c, Oz. 10c, 1/4 Lb. 30c, Lb. $1.00.**

215. **Red Wethersfield Onion.**—This is the most beautiful, large, handsome, globe-shaped red Onion. Earliness, productiveness and keeping qualities. It has perfect form, skin deep purplish-red; flesh purplish-white; fine-grained; produces enormous crops of enormous Onions. **Pkt. 5c, Oz. 10c, 1/4 Lb. 30c, Lb. $1.00.**

217. **Round Yellow Danvers**—Is the same shape as the White Silver Skin. Brownish-yellow color; bulbs quite flat and of good size; largely grown for sets. They are hardier than the white, and keep better through the winter. In the Southern States they can be planted in Autumn and will continue growing during the entire Winter. **Pkt. 5c, Oz. 10c, 1/4 Lb. 35c, Lb. $1.25.**

We are growing, with the most reliable Onion growers in Teneriff, a crop of CRYSTAL WAX ONION SEED. Write to us about it.

218. **Teneriffe White Bermuda Onion.**—A selection of the old Red Bermuda, but possesses much finer qualities and is far more productive. It is oval in shape, of a white color; quite early, very solid, does not skin in transportation, and keeps better than any other foreign variety. It is of a mild and delicate flavor. It produces full-grown Onions from seed the same season. In the South, seed sown in the fall will produce fine large Onions for market in early Spring. **Pkts. 5c & 10c. Oz. 15c, 2 Ozs. 25c, 1/4 Lb. 40c, 1/2 Lb. 75c, Lb. $1.50.**

Parsley

PERSIL. *Perijil.* Peterfillie.

Culture.—Soak the seeds a few hours in lukewarm water, and sow early in Spring, and until the middle of July, in drills 1 foot apart. Thin out the plants to 4 inches. To preserve in winter, transplant to a light cellar or coldframe. 1 oz. will sow 200 feet of drill; 6 lbs, to the acre.

221. **Bolgiano's New Green Mountain Triple Parsley.**—(The best on earth). (Specialty. See page 6.) **Pkts. 5c and 10c, Oz. 15c, 1/4 Lb. 30c, Lb. $1.00.**

222. **Market Gardeners' Best Triple Curled Parsley.**—Plants of a robust and free growth, and is improved by severe cutting; leaves large, beautifully curled; very dark green; stands the heat, drought and cold better and will yield double that of any other sort. Appearance of the plant is very handsome. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 40c.**

223. **Extra Dark Moss Curled Parsley.**—The large moss curled leaves are set so closely that the form of the plant is almost semi-globular, of a rich dark green color and very productive. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 45c.**

224. **Plain or Single Parsley.**—Hardiest variety; foliage very dark green, plain leaves, having a very strong Parsley flavor, and much preferred in French cooking. **Pkt. 5c, Oz. 10c, 1/4 Lb. 15c, Lb. 30c.**

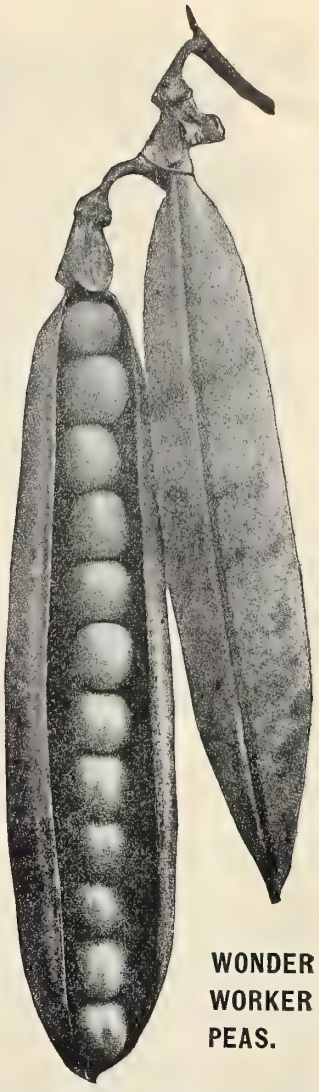

Peas.

POIS *Chicharos o Guisantes* **Erbsen**

CULTURE.—A week may be gained by sowing a quantity in moist sand placed in a box in the cellar, and planting outside when well sprouted. Light, dry soil, not over rich, suits the Pea. Sow as early as the ground can be worked, and again every ten days for succession. Peas may be sown as late as the 20th of August. Medium and late Peas must be planted early; Extra-Earlies may be planted again in August. Sow in single or double rows, from 4 to 6 feet apart, according to the different heights, about an inch apart in the row, and 4 inches deep. Hoe often, and keep the ground clean and fine. The tall sorts can be made to bear more freely by pinching in. The dwarf varieties may be grown in beds like bush beans, with rows about the same distance apart.

☞ Those marked with a star (*) are wrinkled marrows, and, unless otherwise stated, should be sown thicker than the round Peas, and not until the ground has become warm, as they are more liable to rot. They are the finest flavored of all peas.

We supply packets of peas at 5 & 10 cts. postpaid. Add 8c to Pts. and 15 cts. to Qts.

RADISH.

RADIS ET RAVE
Rabanosy Rabanitos
Radiesund Rettig

PKts., Ozs. and 1/4 Lbs. delivered free, but add 8c to Lbs. 6 ozs. of Seed will plant 100-yard Row.

Culture.—Sow as soon as the ground is dry in the spring, in rows 8 to 12 inches apart, every week or ten days for a succession, up to the middle of June, after which they are but little used, unless a cool northern spot can be had, where the ground is shaded during part of the day. They should be sown in light, rich soil, as a crisp Radish cannot be produced in heavy soils. Sow also in early fall for late crops and winter use. Sow 8 to 12 pounds to the acre. Radishes should be eaten when quite small; it is a mistake to let them grow too long and too large. This applies particularly to the French Breakfast and small turnip-shaped sorts.

Early Round and Olive-Shaped Varieties.

230. **Bolgiano's Extra Early Ruby King Radish.**—The best of all. (Specialty, see page 16.) **PKts. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

239. **Scarlet Turnip White Tip Radish.**—Round, bright scarlet, with attractive white tip; matures in 25 days. (Specialty, see page 16.) **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c. 5 Lbs. $1.25.**

238. **Bolgiano's Scarlet Globe Radish.**—It has a rich scarlet color, faultless shape, and matures in 20 days. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

232. **Lexington Market Money Maker.**—The best early round white Radish. (Specialty, see page 16.) **PKt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

241. **Vick's Scarlet Globe Radish.**—A leader among bright round Red Radishes. Quick maturing, extremely attractive, short tops, solid and fine flavor. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

231. **Felton's Model or Philadelphia White Box Radish.**—Handsome and early with fewer short leaves, hence can be sown thickly in the row. **PKt. 5c. Oz. 10c. ¼ Lb. 15c. Lb. 35c.**

248. **BOLGIANO'S CRIMSON KING.**—Double the size of the ordinary early turnip-shaped Radishes, this one often measuring 6 to 7 inches in circumference, remaining solid, firm, tender; white and of mild flavor; the shape varies between round and oval; adapted for either open ground or forcing. **PKt. 5c. Oz. 15c. 1/4 Lb. 20c. Lb. 75c.**

509. **Prussian Globe Radish.**—It is a GLOBE shape, of a crimson color, short top, and will stand forcing without becoming pethy. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

240. **Crimson Giant Forcing Radish.—Originators Stock Seed.**—This is an entirely new variety, suitable for forcing or early planting. **PKt. 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

Early Long Varieties.

257. **NEW WHITE ICICLE RADISH.**—This distinct new Radish, introduced from Germany, is one of the finest and longest of the very early pure white varieties. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

253. **Lady Finger or White Vienna.**—Long, white, very early, attractive, excellent seller. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

251. **Bolgiano's New White Delicacy.**—This charming Radish has a beautiful form, an exceptionally clear, bright, waxy appearance, exceedingly smooth, delicate, crisp and tender, makes it the most salable, half-long white radish. It has short tops, does not become woody. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

255. **Improved Early Long Scarlet Short Top.**—For earliness, brilliancy of color and shortness of top it cannot be surpassed. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.**

250. **Bolgiano's New Glass Radish.**—(Specialty, see page 16.) **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 40c.**

252. **Cincinnati Market.**—This fine strain of the Long Scarlet Short Top Radish. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

239. **Bolgiano's Extra Early Long White Pearl Forcing Radish.**—(Specialty, see page 16.) **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 50c. 5 Lbs. $2.00.**

230.—**BOLGIANO'S SCARLET GLOBE RADISH.**

234. **Bolgiano's New White Olive Radish.**—It has short tops, rapid growth, perfect olive shape, extra fine quality. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

235. **French Breakfast Radish.**—Quick growth; mild; tender; good for forcing. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

236. **Snowball.**—Earliest, round, white, solid; attractive when bunched with red Radish. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c**

246. **Tait's Favorite Forcing Extra Early Radish.**—The great value of this famous Radish lies in its availability for forcing under glass. It is also largely used for field culture. It is perfect in both shape and color, the skin being a bright, transparent red, and owing to an unusually small top many bunches may be put in a single package. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

Summer and Autumn Varieties.

254. **New White Strasburg Radish.**—The most popular Summer Radish; of oblong shape, taporing to a point. Skin and flesh are pure white, almost transparent; very tender; of a delightful pungent taste. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

242. **New White Chartier Radish.**—A white form of the well-known Chartier or Shepherd Radish. **Packet 5c. Oz. 10c. 1/4 Lb. 20c. Lb. 50c.**

243. **Large White Summer.**—Delicious, mild and sweet. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 30c.**

244. **Giant White Stuttgart.**—An immense white summer Radish. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

245. **Chinese Rose Summer Radish.**—It stands the hot, dry weather without becoming pethy or shooting to seed. **PKt. 5c. Oz. 10c. 1/4 15c. Lb. 40c.**

237. **Golden Globe Summer Radish.**—Grows quickly to a fair size, and withstands heat and drought remarkably well. Of excellent flavor. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

247. **Chartier.**—Long red Radish with a white tip. Beautiful for bunching. **PKt. 5c. Oz. 10c. 1/4 Lb. 15c. Lb. 35c.**

HORSE RADISH ROOTS.

The best variety is produced from small pieces of roots 4 or 6 inches in length. These small roots will produce good radish fit for use in one season's growth. Plant the set small end down, where the slanting cut is, so that the top will be 2 inches under the soil, and in rows or furrows 2 to 3 feet apart and 15 to 18 inches apart in the rows. The soil should be very rich and well cultivated. It is hardy and may be left in the ground until Spring before digging. A part of the crop may be pitted late in the Fall if desired. A dozen roots will give all that will be needed for family use; as it constantly increases, it is best to plant it in some out-of-the-way corner of the garden. **By mail (postpaid), Each 5c. Dozen 25c, 50 for 60c. 100 for 90c. By express (not paid), 100 for 50c, 300 for $1.50, 500 for $2.40, 1000 for $4.50.**

. . *SALSIFY, or OYSTER PLANT* . .

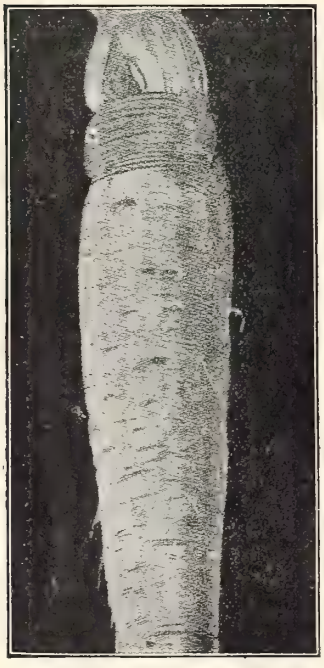

SALSIFIS *Ostion Vegetal* Haferwurzel

CULTURE.—Sow as early as the ground can be worked in the spring, in drills 12 inches apart, 1 inch deep, and thin out to 6 inches in the row. Keep them free from weeds. Cultivate the same as for carrots and parsnips. A part of the crop may be left in the ground till spring, when it will be found fresh and plump. The roots are cut into pieces ½ inch long, boiled until tender, and then served with drawn butter, in which way it is a delicious vegetable. They are also mashed and baked like parsnips, and have a sweet, agreeable flavor. Mashed and fried, the flavor is much like that of the oyster. Sow 8 to 10 lbs. to the acre.

Pkts., Ozs. and 1/4 Lbs. delivered free, but add 8c to pounds.

CULTURE.—Sow in a hot bed in early spring, or the seed may be sown in shallow boxes and placed in a window, when one does not wish to have the trouble of making a hot bed. Transplant to the open ground when all danger of frost is past, setting the plants 3 or 4 feet apart each way. Fruit may be had several weeks earlier by sowing seed quite early and transplanting to small pots.

Messrs. J. Bolgiano & Son.
Gentlemen:—The "Wealthy Tomato" you sent me came all right, and I was greatly pleased with them. This year I bought my seed from a local dealer, and the Tomatoes were rough and knotty, and not satisfactory, and I had to throw away about half. *Yours very truly,*
W. L. TATE, Ala.

J. Bolgiano & Son:
I planted your Wealthy Tomato last year, and grew 1 crate from every two plants, I do not want any better. *Mark Zill, Fla.*

"Your Wealthy Tomato is the earliest and finest we have had in this part of the country. We had ripe Tomatoes the 26th of June. They yield in great abundance. *Chas. O. D. Lee, Frederick Co., Md.*

BOLGIANO'S EXTRA EARLY WEALTHY TOMATO.

277. **Bolgiano's Extremely Early I. X. L. Tomato.**—(Earliest, largest, most prolific. (Specialty, see page 3.) **Pkts. 10c and 25c. Oz. 75c. 1/4 Lb. $2.50. Lb. $8.00.**

279. **Bolgiano's "Greater Baltimore" Tomato.**—Made a fine crop when all others failed. (Specialty, see page 2.) **Pkts. 10c and 25c. Oz. 75c. 1/4 Lb. $1.50. Lb. $5.00.**

278. **Bolgiano's Extra Early Wealthy Tomato.**—One of the earliest of the earlies; smooth, firm, delicious flavor, beautiful red color, and an abundant yielder. **Pkts. 10c and 25c. Oz. 50c. 1/4 Lb. $1.25. Lb. $5.00.**

311. **Florida Special Tomato.**—Early, prolific, blight proof. (Specialty see page 4.) **Pkts. 10c. and 25c. Oz. 75c. 1/4 Lb. $1.35. Lb. $5.00.**

287. **Chalk's Early Jewel.**—Very fine new sort; large, solid, smooth, bright red; similar to the Stone, but early. (Specialty, see page 3.) **Pkts. 5c. and 10c. Oz. 25c. 1/4 Lb. 75c. Lb. $3.00.**

286. **Sparks Earliana Tomato.**—It is remarkable for its earliness, very large size, handsome shape and bright red color. Its solidity and fine qualities are equal to the best medium and late sorts. **Pkt. 10c. Oz. 25c. 1/4 Lb. 75c. Lb. $2.50.**

283. **Bolgiano's New Century Tomato.**—Deep red color; large, handsome size from first picking until last Tomato is taken from the vine. (Specialty, see page 4.) **Pkts. 5c & 10c. Oz. 25c. 1/4 Lb. 75c. Lb. $2.50.**

284. **Bolgiano's Best.—The Great B. B. Tomato.**—It has every good quality pretaining to the Tomato and avoids all faults of other sorts. One of the smoothest, most solid, heaviest and most handsome Tomato grown. It suits gardeners, canners and shippers, who are delighted with its faultless fruit. The B. B. is as solid as an apple, has no core and the flavor is excellent. It weighs more pounds per bushel than other sorts which proves its solidity; has a beautiful red color, outside and inside, and the fruits are quite large. There is no need of a field of poor Tomatoes when fifty cents will buy enough to supply plants for one acre. Used successfully for early and late crops. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. $1.50.**

280. **Bolgiano's Prize-Taker Tomato.**—If picked while yet green it ripens gradually into a rich, glossy, crimson color, and this makes it one of the best shippers for early market. It is smooth, solid, large and heavy, and holds the size from the first to the last of the crop. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. $1.50.**

281. **Redfield Beauty.**—It is a vigorous grower, long and heavy yielder; fruit is perfect shape, with a skin that is hardy, making it an excellent shipper. **Pkts. 5c and 10c. Oz. 15c. 1/4 Lb. 50c. Lb. $1.50.**

282. **Livingston's Beauty Tomato.**—Large, smooth, dark pinkish red; thick flesh; regular form. **Pkts. 5c & 10c. Oz. 15c. 1/4 Lb. 40c. Lb. $1.25.**

I grew your famous New Century Tomato last year and they were without exception the finest I have ever grown or seen. I have been gardening for 20 years.

DUKE OF YORK TOMATO

Of Special Value to Florida Growers.

297. One of the grandest Tomatoes recently introduced, color rich, glossy scarlet, splendld cropper, round in shape, flesh very firm, large size, fine flavor. It ripens its fruit uniformly together, whilst its profusion of clusters, averaging 8 and 10 large evenly formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is a strong, healthy grower, not subject to rust or blight, is an enormous cropper and produces until the vines are killed by frost, holding its size well until the last picking. Quality the very best, solid and meaty, **Pkts. 5c and 10c. Oz. 35c. ¼ lb. $1.00. Lb. $3.50.**

J. BOLGIANO & SON, Baltimore, Md, October 16, 1905.

TURNIP

1½ to 2 pounds to the acre

NAVET *NABO* Rube

PKts., Ozs. and 1/4 Lbs. delivered free, but add 8c. to pounds.

CULTURE.—For early Turnips sow as soon as ground opens in spring. No. 327 should be sown from any time in July to first of August; but the other kinds, for winter use, may be sown from the middle of July to the end of August. Turnips are generally sown broadcast, but much larger crops are obtained (particularly of the Ruta Bagas) by cultivating in drills 18 inches apart, and thinning to 6 inches in the drill. Sow in drills, one pound to the acre; broadcast, two to three pounds to the acre.

IT PAYS TO SOW BOLGIANO'S EXTRA CHOICE RECLEANED CLOVER & GRASS SEEDS.

Specially Recleaned of Weeds and Chaff by the most Modern Electric Machinery. We Guarantee Our Seeds to be True to Sample. Our Fancy Cleaned is the Cleanest and Best Quality Possible to obtain. Samples will be cheerfully and promptly Mailed when Requested. ☞Special Prices Given to Large Buyers. Bags extra at cost. By mail, add 9c. per pound postage.

1111. **Extra Fancy Cleaned, Tested Red Top, or Herd's Grass.**—An excellent grass, indigenous to moist soils, and does well on either uplands or lowlands. It is hardy and yields about a ton and a half per acre of fine hay of excellent quality. Sow 12 pounds per acre of the Fancy Cleaned Seed. This Seed is much the best and most satisfactory to sow. When sown with Timothy, sow 6 pounds of the Fancy Cleaned Seed and 8 pounds Timothy per acre. Sow in the Spring or Fall. **Lb. 15c. 10 lbs. @ 10c. lb. 100 lbs. @ 8c. lb.**

1112. **Choice Red Top.—Lb. 10c. 10 lbs. @ 8c. lb. 50 lbs. and over 7c. lb.**

1113. **Chaff Red Top.—Bus. of 10 lbs. 25c. Sacks of 50 pounds 60c. 10 Sacks, $5.00.**

1114. **Orchard Grass.—Best Western Recleaned.**—A well-known valuable grass, for hay or pasture. It succeeds well on moist soils; does best on loamy or moderately stiff soils, but not very wet. Comes early in Spring and continues well into Winter. Of quick growth, relished by stock, bears close grazing. Makes excellent hay; does well mixed with Red Clover, which ripens at the same time. Should be cut when in blossom, as the hay is injured if the seed ripens. Can be sown in the Spring or Fall, with grain or alone. Sow 2 bushels per acre by itself, or 1 bushel with 10 pounds of Clover make a fine mixture. **Lb. 15c. 10 lbs. $1.35. Bus. of 14 lbs. $1.75.**

1116 **Bromus Inermus.**—Will stand long droughts and produce heavy crops in dry sections where other grasses would perish. One of the hardiest grasses. Desirable for permanent pasturage. Succeeds in a wider range of temperature than any other grass. Sow 25 to 30 pounds per acre. (Bus. 14 lbs.) **Lb. 15c. 10 lbs. $1.40. Write for special prices in quantity.**

1117. **Timothy.—Extra Fancy Recleaned.**—This grass is most commonly cultivated for hay and for that purpose probably surpasses all other grasses. It makes the best hay for Spring grasing. It is perennial, and if the meadow is kept in good fertility by surface dressing it will bear crops indefinitely. **Lb. 10c. Gal. 30c. Peck 50c. Bus. of 45 lbs. $1.75.**

1118. **Kentucky Blue Grass Seed, Fancy Cleaned.**—Suits any soil. It makes a compact turf, retains verdure during hottest summers. Makes luxuriant growth in Spring and Autumn. Indispensable as a pasture grass. It is always a reliable, satisfactory grass. It is clean of weeds and chaff. When the Fancy Kentucky Blue Grass Seed is used by itself, sow 20 lbs. to the acre; with Timothy, use 12 lbs. Fancy Kentucky Blue Grass and 10 lbs. Timothy. **Lb. 15c. 10 lbs. $1,10. Bus. of 14 lbs. $1.50.**

1120. **Canadian Blue Grass.—The hardiest grass in cultivation.**—Should not be confounded with the Kentucky Blue Grass. Canadian Blue Grass shoots its leaves very early. Cows fed on it produce very rich milk. It is relished by sheep. Its bluish green stems retain their color after the seed is ripe. It shrinks less in drying than any other grasses. It is an excellent grass for dry, sandy, thin soils and banks, and covering the surface of rocky soils. **Lb. 15c. 10 lbs. 90c. Bus. of 14 lbs. $1.25.**

1121. **English Rye Grass.**—A nutritious, permanent grass for meadows, pastures and mixing with others for lawns. **Lb. 15c. 10 lbs. or over at 10c. per lb. Write for special prices in quantity.**

1122 **Meadow Fesque.**—Thrives in all soils. Used for mixing with pasture and lawn grasses. Three bushels to the acre. 22 lbs. to the bushel. **Lb. 15c. 10 lbs. or over at 10c. per lb.**

1123. **Tall Meadow Oat Grass.**—Valuable for soiling or permanent pasture; early, luxuriant growth; makes splendid hay. 10 lbs. to the bushel. **Lb. 15c. Market Price in Quantity.**

1124. **Red or Creeping Fesque.** (*Festuca Rubra.*)—Forms a close, rich sod and is valuable in lawns and pastures. **Lb. 15c. 10 lbs. $1.20. Bus. of 14 lbs. $1.40.**

1125. **German, or Golden Millet.**—The Millet is a very valuable forage crop and has become very popular with all planters. The German, or Golden, is decidedly the best variety to grow, producing large crop of fine grass, ranging in growth from 4½ to 6 feet high, which can be cut green or made into hay and is readily eaten by all kinds of stock. Its yield is from 1½ to 2½ tons to the acre. It requires a bushel to sow one acre. **Lb. 5c. Pk. 40c. Bus. $1.25.**

1126. **Hungarian Millet Grass.**—One of the most valuable annual soiling forage plants growing in any ordinary soil; withstands the drought. 48 pounds to the bushel, one bushel to the acre. **Lb. 5c. Pk. 40c. Bus. $1.25.**

Genuine NITRO-CULTURE—See Page 22

Could not do without NITRO-CULTURE.

Clarkville, Tenn., December 19, 1904.

I prepared a piece of ground, after peas, subsoiled it, treated Alfalfa seed with Bacteria and now have a very fine stand, one that will go through winter all right. I have so much faith in the Bacteria that I would not think of sowing any seed without treating it. GOLD GOODLETT.

DWARF ESSEX RAPE.—Valuable for Cattle, Sheep and Hogs.

1127. Under favorable conditions Rape is ready for pasturing sheep or cattle within six weeks from time of sowing, and on an average one acre will carry from twelve to fifteen sheep six weeks to two months. When on the Rape they should at all times have access to salt; but water is not necessary. As it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pasture. Its fattening properties are probably twice as good as those of Clover, and for sheep the feeding value of Rape excels all other plants we know of. Sow 4 lbs. per acre broadcast, 2 to 3 lbs. per acre in drills. **10c. lb. $2.50 bushel of 50 lbs. 100 lbs. $5.00. If by mail, add 8c. per lb.**

CRIMSON CLOVER

best crop for hay, soilage and green manuring, Fall, Winter and spring pasturing. Crimson Clover furnishes an abundance of nutritive forage at seasons when pastures are dead. It is of an unfailing supply of manure. It solves the problem of cheap manuring. It is the great nitrogen gatherer and economizer in the use of fertilizers. Valuable for planting in orchards, berry patches, for sowing among cultivated crops, such as Cabbage, Corn, Tomatoes, Tobacco. Improves poor land and restores to fertility those that have been worn down by excessive cropping. May be planted in Spring, Summer or Fall. Splendid for re-seeding Red Clover that has been Winter killed. **Pkt. 5c. Lb. 15c. 10 Lbs. 90c. Write for Lowest Prices in Quantity.**

Clovers

1128. **Alfalfa or Lucerne.**—As nutritious for dairy cows as the best mill feeds. The great agricultural clover of the West; now rapidly coming into favor in the East. Well adapted to dry sections, but thriving anywhere on well-drained soil. It is a perennial plant, lasting many years under good treatment, and may be cut several times each season when well established. Perfectly hardy. Root system remarkable for development. Alfalfa roots not infrequently descend ten or more feet into the soil, indicating ability to resist drought. Recent experiments at the New Jersey station show that Alfalfa has an extremely high value as a forage crop in the East. It is not to be recommended for wet or heavy soils, but should be tried by all dairymen whose land has good underdrainage. Use 30 to 35 lbs. of seed per acre. Sow in April and May, on well limed land. An Alfalfa field is worthy of all care and expense required to produce. Bulletin No. 148 of N. J. Station, issued in February, 1901, says: "The average yield of green forage per acre for three years (including the first year) was 18.27 tons, equivalent to 4.57 tons of hay. The yield the third year from five cuttings was 26.6 tons of green forage, equivalent to 6.65 tons of hay." **Pkts. 5c. and 10c. Lb. 15c. Bus. $8.40. Write for Lowest Prices in Quantity.**

1130. **Bolgiano's Recleaned Red Clover Seed.**—We call special attention to the superior quality of Bolgiano's Recleaned Red Clover Seed, which will be found superior to the samples generally handled by the trade. SPECIAL PRICES ON APPLICATION. There is not sufficient care exercised by the planter or farmer in the selection of this, the most valuable of all Grass Seeds. Many sow it without even examining whether or not it contains more seeds of weeds than Clover, and such may frequently wonder where all the daisies, docks, thistle and other weeds that infest their farms spring from. Weeds will always make their appearance fast enough without sowing them and to guard against this, sow no Clover Seed unless you examine it either with a sharp eye or a magnifying glass. **Lb. 15c. Bus. $8.40. Market Prices in Quantity.**

1131. **Mammoth Red Clover.**—Tall growing species that is used by farmers for hog pasture. It makes a marvelous growth in rich loamy soils and a splendid showing on thin land. Ripens with Timothy and should be sown with it, using about 10 or 12 pounds per acre and 20 pounds of Timothy. Popular for plowing under as a fertilizer. **Lb. 15c. Bus. $8.40. Market Prices in Quantity.**

1132. **Alsike, or Hybrid Clover. Finest Recleaned.**—Even Clover-sick lands will produce a good crop of this; perennial and very hardy, thrives equally well on wet or dry soil. Its strong fibrous roots take a firm hold in the ground and thus do not wash out. It is very valuable, both for pasturage and soiling; very productive, sweet and fragrant. The flowers are distinct light pink, and much liked by bees. Sow in Spring or Fall, 6 pounds per acre. **Lb. 15c. Bus. $7.40. Market Prices in Quantity.**

1133. **White Dutch Clover. Fancy Recleaned.**—The best variety for lawns, and permanent pastures, as it forms a close herbage, and remains green throughout the season; it also affords excellent food for bees. **1/4 Lb. 10c. Lb. 25c. 5 Lbs. $1.00. 10 Lbs. $1.80.**

Gentlemen:—The New Era Cow Peas I purchased from you last year were sown on very thin ground and they produced a fine crop of vines,

Yours truly,
T. S. GOSNELL, Md.

1135. **Spring Rye.**—Distinct from the winter Rye, grain of finer quality and more productive; can be successfully grown in any latitude, and is now being largely sown in place of oats, being a much more profitable crop, on account of the production of nearly four times the straw, and also as a "catch" crop where winter grain has failed. The straw is equally as valuable as that of the fall or winter rye, standing stiff, 7 to 8 feet high. Produces 30 to 40 bushels of grain per acre. As it does not stool like winter rye, not less than 2 bushels to the acre should be sown. **Pkt. 10c. Lb. 15c. Pk. 35c. Bus. $1.00.**

BOLGIANO'S NEW HEAVY WEIGHT CORN.

1138. It is remarkably heavy, uniform, selected, and thoroughbred, and if you want the prettiest Corn you ever saw, Bolgiano's "Heavy Weight" is what you want. It has a remarkably deep, close grain. Color, deep yellow with a rather light cap. The very deep grains are dented on top. It matures in 100 to 110 days, ears average 9½ to 11 inches long and 8½ to 8¾ inches in circumference. Grains are so very closely packed that the tips are entirely covered and the butts are almost covered. Yields on the average more than 150 bushels to the acre. Ears weigh 16 to 22 ounces each. It is most excellent Corn for feeding, the grain being ¼ inch wide and over ½ inch in depth. The narrow but deep grained Corns are more readily digested by animals. Three grains, one near the top, one at the middle and one near the butt of each ear of Bolgiano's "Heavy Weight" Corn are tested, so when you buy this Corn you can feel sure of a perfect stand. **Pkts. 5c & 10c, Lb. 15c, Qt. 25c, Gal. 65c, Pk. $1.00, ½ Bus. $1.75. Bus. $3.50.**

501. **Bolgiano's 90 Day Red Cob Yellow Corn.**—The richness of color and the fine quality of the grain, also the beauty of the ear, make this Corn the leader in commanding the Tip Top Market price. **Pkts. 5c & 10c, Qt. 15c, Pk. 40c, 1/2 Bus. 65c, Bus. $1.00.**

1139. **Mammoth Golden Beauty Corn.**—Has the largest ears of any 100-day Corn. It outyields all other Corn. The increased yield repays the cost of the seed many times over. Growers should make sure of getting the largest yield and most handsome grain to meet competition and secure the highest prices. Ears usually average from 9 to 12 inches long and from 20 to 30 rows on the cob, some of the stalks bearing 3 to 5 ears. Then why use your poor stock any longer? It has produced 150 bus. shelled corn to the acre. **Pt. 10c. Qt. 15c. Gal. 30c. Peck 50c. Bus. $1.25.**

1140. **Mastodon Early Dent Corn.**—The largest eared and the largest grain Early Dent Corn. It grows strong, quick and makes the finest appearing shelled Corn of them all, being purely yellow Dent. **Pkt. 5c, Pt. 10c. Qt. 15c. Gal. 30c. Peck 50c. Bus. $1.25.**

1141. **Iowa Gold Mine.**—A selected strain, ripening only a few days later than the Pride of the North. Ears of good size and symmetrical. Color, a bright golden yellow. Grain very deep. Cob small, drying out quickly when ripe. From 70 pounds of ears 60 to 62 pounds of shelled Corn may be obtained, of highest market quality. **Pt. 10c. Qt. 15c. Gal. 30c. Peck 50c. Bus. $1.25.**

1142. **Maryland White Corn.**—This very handsome Corn is the favorite of old farmers who like a big grain on a small cob. The grain is pure white, with good-sized ear, having ten rows to the cob, Used for general crop. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Peck 50c. Bus. $1.25.**

1143. **Improved Early Leaming Corn.**—Its extreme earliness, productiveness and fine quality has made it very popular with the farmers, and especially with those in the localities where the seasons are short. It produces from 65 to 90 bushels to the acre, in accordance with the quality of the soil. The ears and grains are of medium size. **Pt. 10c. Qt. 15c. Peck 40c. Bus. $1.00.**

1144. **Improved Evergreen Broom Corn.**—The best variety for general cultivation on account of color and quality of brush. Ripens very early, grows about 8 to 10 feet high, brush of good length, fine and straight, and always of green appearance when ripe. **Pkt. 5c. 1/4 Lb. 10c. Lb. 15c, by mail 25c. Peck 75c. Bus. $2.50.**

1145. **"Hickory King" White Corn.**—This white Field Corn has the largest grains, with the smallest cob, of any white Corn. So large are the grains and so small the cob that on an ear broken in half, a single grain will almost completely cover the cob section. Of strong growth, the stalks take a firm hold in the ground and stand upright, resisting severe storms. It yields splendid crops on light soil, and is undoubtedly the best and most productive White Field Corn for the South. **Pkt. 5c. Pt. 10c. Qt. 15c. Gal. 30c. Peck 50c. Bus. $1.25.**

1146. **Sorghum, both Early Amber and Orange Sugar Cane.**—These Sorghums make the finest quality of syrup. Stock of all kinds relish it. Sow 4 quarts in drills, or 8 quarts broadcast to the acre. **Lb. 10c, by mail 18c. Qt. 10c. Peck 35c. Bus. $1.00.**

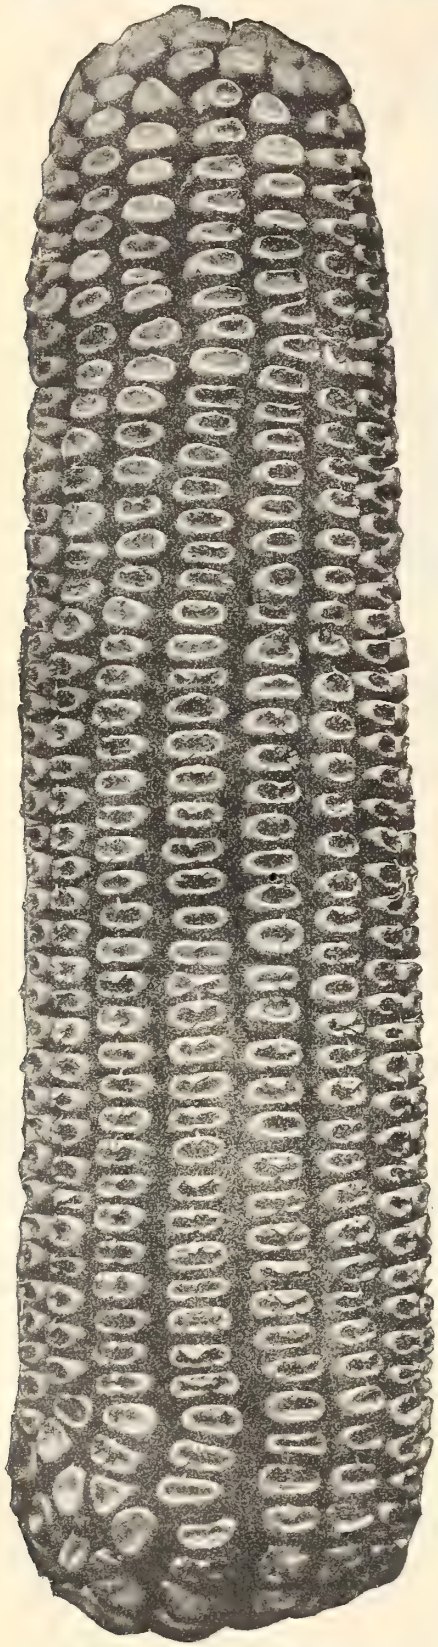

1147. **Kaffir Corn.**—The heads contain small white seeds which make an excellent flour. Greedily eaten by horses and cattle. Excellent feed for poultry. Use 4 to 5 pounds to the acre. **Lb. 10c, by mail 19c. Qt. 15c. Peck 40c. Bus. 75c.**

1148. **Bolgiano's Cuban Giant Ensilage Corn.**—We have thoroughly tested the Cuban Giant beside all large white grain Ensilage Varieties. Grains are pure white, very large, broad and long. Of stronger vitality than any other variety. It is the best milk producer of all Ensilage Corns, being as sweet as Sugar Corn. Outyields the Red Cob Ensilage and is 10 to 12 days earlier. It is the most perfect Corn we have found in our years of experience. **Pt. 10c. Qt. 15c. Pk. 40c. Bus. $1.50.**

1069. **Connecticut Field, or Large Yellow Pumpkin.**—Excellent for growing in corn. **Lb. 25c. 10 Lbs. $1.50.**

1149. **Sand or Winter Vetch. (Vicia Villossa.)** VICIA VILLOSA succeeds and produces good crops on poor sandy soils as well as on good land; grows to a height of four or five feet. It is perfectly hardy throughout the United States, remaining green all winter, and should be sown in the spring, mixed with oats, spring rye or barley; or during August and September, with winter rye, which serves as a support for the plants. It is the earliest crop for cutting, being hardier and nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for planting spring crops. Every dairyman and stock-breeder in the United States should have a field of it, and if you try it once, you will never be a season without it. It is exceedingly nutritious, eaten with relish, and may be fed with safety to all kinds of stock. Sow 50 to 60 lbs. per acre with one-half bushel of rye, oats or barley. **Lb. 15c, Bus. of 60 Lbs. $6.00, 100 Lbs. $9.00. If by mail, add 8c per Lb.**

1150. **Spring Vetches or Tares.**—Closely associated with Peas in character. Highly valuable for soiling or for green manuring. Sometimes grown with oats, for mowing and feeding to stock. Use 2 or 3 bus. to acre broadcast, or 1 to 2 bus. in drills. Sow in Spring, while the ground is cool and moist, or in early Autumn. **Lb. 10c, Bus. of 60 Lbs. $3.75, 100 Lbs. $6.00.**

BOLGIANO'S CUBAN GIANT ENSILAGE CORN

Bolgiano's New Jumbo Mangel.

Root Crops for Farm Stock

Mangel-Wurzels and Sugar Beets. 4 Pounds to the Acre.

1151. **New Jumbo Mangel.**—For milch cows and cattle generally, the New Jumbo Mangel has no equal. It is a milk producer of the highest quality and at the same time keeps the cattle over winter in prime condition. It will outyield any other Mangel two to one. It is easy to grow, producing immense roots in great quantities, thus yielding a most profitable crop. **PKt. 5c, Oz. 10c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 25c, 5 Lbs. $1.10.**

1152. **Gate Post Mangel.**—The name indicates the immense size of this fine flavored Mangel. Among the Yellow Mangel it stands superior. The milk it produces when fed to cows is of the richest character. As one experienced farmer puts it, "The Gate Post Mangel is a butter and milk producer of the first merit." If you want the best Yellow Mangel you ever grew, send for Bolgiano's Gate Post Mangel. **PKt. 5c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 25c, 5 Lbs. $1.10.**

1153. **Giant Red Mangel-Wurzel.**—The heaviest cropping and best long Mangel. This mammoth variety grows to immense size, single roots weighing from 20 to 30 pounds each, and always of fine texture and of good quality; is remarkable for broad shoulder and massive shape of the root, by which a great weight is obtained without coarseness. In England it has produced from 60 to 75 tons of roots to the acre. **PKt. 5c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 22c, 5 Lbs. $1.00.**

1154. **Golden Tankard Yellow-Fleshed Mangel.**—This distinct variety is a most important addition to our list of roots for stock feeding, as it contains less water and more sugar than any other Mangel. A special feature is the rich, deep yellow color of the flesh, nutritious and milk-producing qualities. In England, where it is considered indispensable for farming, large dairy farmers state that they are not only able to obtain a higher price per gallon for milk from cows fed on this Mangel but also that the cows are in much better condition. **PKt. 5c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 22c, 5 Lbs. $1.00.**

1155. **Improved Sugar Beets for making Sugar.**—Is a very large growing sort; used also for feeding stock. Recommended as hardy and very productive, yielding from 35 to 40 tons to the acre and containing a greater per centage of sugar. **PKt. 5c, 1/4 Lb. 10c, 1/2 Lb. 15c, Lb. 22c, 5 Lbs. $1.00.**

Culture of Cattle Beets.—They should be sown from April to June in drills 2 feet apart, and afterwards thinned out to stand 1 foot apart in the rows. Keep well cultivated, and you will have an abundant crop of roots for winter use.

Cow Peas.

New Era.—Most highly recommended by the experiment stations. Extremely productive. Write us for special leaflets on this excellent Pea.

1162. **Black Cow Peas.**—Seed medium-sized and black. Vines trailing. Seed matures early. Market prices.

1163. **Clay Peas.**—Seed medium-sized and cream-colored. Vines grow tall and erect. Seed matures medium late. Market prices.

1164. **Whip-Poor-Will.**—Vines erect. Seed large and mottled red and white and matures early. Good to grow between corn. Market prices.

1165. **Canada Field Peas.**—Sown in February, March or April. Cures easily, making a splendid hay. Sow 1 to 1½ bus. per acre broadcast with ½ bus. of oats. Cut for hay before the peas mature. Market prices.

1166. **Wonderful or UnKnown Peas.**—Seed medium-sized and buff. Vines erect if planted late, trailing if planted early. Seed matures late. Market prices.

1167. **Soja Beans.**—The great drought-resisting forage crop; unsurpassed in nutritive value for feeding; also makes a splendid soil improver. Market prices.

1168. **Black Eye.**—Vines erect. Seed medium-sized and white, and matures medium late. Market prices.

1169. **Red Ripper.**—Vines vigorous, half-trailing, seed large and dull red. Matures very late. Market prices.

Bolgiano's "Good Times" Oats.

1156. "Good Times" Oats will yield from 100 to 160 bushels of unusually large, white plump heavy grains to the acre. The straw is very strong, handsome, and stands up well. The great vigor and productiveness is indicated by the very broad blades. On account of its great stooling capacity, it requires much less seeds than most other sorts. "Good Times" Oats, as its name aptly indicates, on account of its vigorous growth and wonderful productiveness, will bring "Good Times" to those farmers who have had little success or entire failure with their crops of Oats. Where successful crops of Oats have been raised, "Good Times" Oats will produce heavier crops than were ever produced before. Those who have raised "Good Times" Oats from the few bushels we put out last year, are getting now on the open market five cents more per bushel than the highest quoted market price. Send for sample; you never saw such fine Oats as "Good Times" Oats. **Packets 5c and 10c, Lb. 15c, Peck 50c, Bushel of 32 Lbs. $1.00. 10 Bus. and over at 85c.**

Bolgiano's "Good Times" Oats.

Bolgiano's New Century Oats.

1157. It immediately leaped into the greatest success. It is a first-class crop, early to mature and extremely heavy weight. The straw is strong and stiff, and is entirely free from rust.

New Century Oats has fresh new life and is the hardiest and heaviest of Oats. It is so strong and thrifty that neither freezings, protracted droughts nor hot winds seem to have much effect upon its growth. It appears able to grow right along from start to finish almost without regard to weather conditions. Grain is the heaviest in existence. New Century Oats is as bright as a new dollar; the hull is as thin as a sheet of paper.

The originator says, "We have raised 100 bushels to the acre." A yield like this is uncommon, but yields from 60, 70 or 80 can be obtained by careful cultivation. **PKts. 5c and 10c, Lb. 15c, PK. 40c, Bus. $1.00.**

1158. **Scottish White Oats.**—A very productive Side Oats yielding this year 96 bushels to the acre. A grand variety for either fertile or thin, poor land. **PKts. 5c and 10c, Lb. 15c, PK. 40c, Bus. $1.00. 10 Bus. at 85c.**

1159. **Potato Oats.**—A fine, White Oats, maturing two weeks earlier than any other variety. Has strong straw, withstands the drought and yields 90 to 150 bushels per acre. **PKts. 5c and 10c, Lb. 15c, Peck 40c, Bushel $1.00. 10 Bus. at 85c.**

1160. **Silver Mine.**—A tall and very prolific sort. Has a short, thick grain and yields immensely. **PKts. 5c @ 10c, Lb. 15c, PK. 40c, Bus. $1.00. 10 Bus. at 85c.**

Having made the selection of Fine Lawn Grasses our pride for many years, we are able to offer Lawn Seed superior in every respect, and acknowledged by all who have used it to be the best.

Druid Hill Park Velvet Green Lawn Grass Seed. **2 Lbs. to sow 800 square feet. 30 to 40 Lbs. to the acre.** This choice mixture is the best for making beautiful and permanent lawns. It is composed of grasses which are especially adapted for the purpose of producing lawns which retain their rich color and velvet green appearance throughout the entire Spring, Summer and Fall. It is valuable for the formation of lawns in places exposed to the Sun, also to partially shaded places where it is difficult to produce good sod. In making up this mixture we are extremely careful to use only the very best quality seed, which has been re-cleaned, the light seed and chaff having blown out, thus securing the highest grade mixture it is possible to obtain, and seed that will quickly grow.

Shady Nook Long Grass Mixture. A popular mixture of grasses best adapted for sowing in shady places where ordinary grasses will not thrive. In nearly all lawns where there are trees there will be found bare spots, which can be made green and bright by using this mixture. **Price, 25c per lb. 5 lbs. $1.00. Add 8c per lb. if to go by mail.**

White Dutch Clover. 1133. This is the best clover for lawns, as it forms a close herbage and remains green throughout the season. It is also a valuable mixture with grass seed for pasture. Sown in the Spring at the rate of six pounds per acre when sown alone; one-half the quantity when sown with other grass. **Lb. 25c. 5 lbs. for $1.00. Add 8c per lb. if to go by mail.**

Bolgiano's Lawn Fertilizer. Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have therefore, had prepared for us a special lawn fertilizer, which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, 500 to 1500 pounds per acre. **Pkgs. 10c; by mail 20c. 5 lbs. 25c. 10 lbs. 45c. 25 lbs. $1.00. 100 lbs. $2.50. 500 lbs. $11.**

The "E. Z." Grass Catcher. Guaranteed to fit any of the 220 different styles of Lawn Mowers on the market, and can be attached or detached to dump in an instant. It is made with Galvanized-Iron Bottom with Impossible-to-Rip-Cloth Connections. The sides and back is made of very strong canvass, and the frame is made of Coppered, Iron-Wire, with supports to prevent it from striking the Mower-roller, and with its universal attachments will fit perfectly on any machine made. **Price, $1.50.**

CULTURE OF FLOWER SEEDS.

Provided the soil is in a proper state, flower seeds may be sown in the open border in the months of April and May, or as soon as the soil becomes dry and easily crumbled, after the spring frost has disappeared. They may also be sown in prepared beds of light, rich soil, and transplanted into the garden. The former is the more simple method but not always as satisfactory. The better plan is to sow all fine seeds under glass in a greenhouse, hot-bed or in the house. As to the depth to which seed should be covered, the best general rule is to cover fine seed very lightly, just enough to protect them from the Sun; and in extremely dry weather a sprinkling of damp moss is very uesful. With very fine seeds it is best to sow on the surface, and press them lightly into the soil. We are convinced that one of the most frequent causes of failure is in sowing the seed too deep, and seedsmen are unjustly censured, when fault lies with the cultivator.

ANNUALS attain full growth from seed, flower and die in one year.

BIENNIALS grow from seed one year, bloom and die the next, though some varieties bloom the first season when sown early.

PERENNIALS last for severel years, blooming annually after the first season, though some varieties will bloom the first season if sown early.

Explicit cultural directions are printed on all our packets of flower and vegetable seeds. With this help you are sure of success.

Sweet Pea Culture.—Seed should be sown in very early Spring to enable the vine to get a strong growth before warm weather comes; don't plant the seed in soil too poor for any other culture, or in a sunless location. They need a free clay loam, moderately rich, freely cultivated. Seed should be planted not less than 2 inches deep, and as the plants become established, bank soil against them, repeating this two or three times throughout the season. Don't over-fertilize. As the flowers come into bloom, they should be cut off; if the pods are allowed to form, the plants will stop blooming.

The Sweet Peas *I bought of you surpassed any in our locality; in fact, they were the largest and finest I have ever seen. As for the* **Cosmos,** *I cannot say too much. They bore a profusion of immense blooms all Fall and were admired by many of my neighbors. Geo. I. Richardson, General Agent, New York Life Ins. Co., Baltimore, Md.*

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—Your superior Mixture of Sweet Peas are without exception the finest I have ever seen, they began blooming very early and continued to bloom during the entire season. The colors were simply immense, at least 40 different kinds could be easily selected, ranging from White, through all the lighter and darker shades of Pink, Red, Blue, Deep Maroon, etc. It seemed for each bloom we cut, two more came. It is a pleasure to recommend to others your Giant Sweet Peas, for they have given me so much pleasure.

Sweet Pea Culture.—Seed should be sown in very early Spring to enable the vine to get a strong growth before warm weather comes; don't plant the seed in soil too poor for any other culture, or in a sunless location. They need a free clay loam, moderately rich, freely cultivated. Seed should be planted not less than 2 inches deep, and as the plants become established, bank soil against them, repeating this two or three times throughout the season. Don't over-fertilize. As the flowers come into bloom, they should be cut off; if the pods are allowed to form, the plants will stop blooming.

The Sweet Peas *I bought of you surpassed any in our locality; in fact, they were the largest and finest I have ever seen. As for the* **Cosmos,** *I cannot say too much. They bore a profusion of immense blooms all Fall and were admired by many of my neighbors. Geo. I. Richardson, General Agent, New York Life Ins. Co., Baltimore, Md.*

J. Bolgiano & Son, Baltimore, Md.

Gentlemen:—Your superior Mixture of Sweet Peas are without exception the finest I have ever seen, they began blooming very early and continued to bloom during the entire season. The colors were simply immense, at least 40 different kinds could be easily selected, ranging from White, through all the lighter and darker shades of Pink, Red, Blue, Deep Maroon, etc. It seemed for each bloom we cut, two more came. It is a pleasure to recommend to others your Giant Sweet Peas, for they have given me so much pleasure.

JAPANESE IRIS.

(IRIS KAEMPFERII.)

These magnificent Iris are among the most beautiful of our summer-flowering plants, and are becoming more popular every season. They commence blooming about the middle of June, and continue for five or six weeks. Many of these flowers measure from 10 to 12 inches in diameter, and rival the Orchids in their rich colorings and markings. The collection offered were selected while in flower, from the best Japanese introductions. While this Iris succeeds in almost any soil or condition, it delights in a rich, deep, moist position.

(A whole page could be used up in an effort to accurately describe these beautiful Iris. All have six large petals unless otherwise specified. Send for list. Order by number.

Prices:—Flowering clumps of the new large floweriug varieties of Japanese Iris, delivered free in the United States. **25c each. $2.50 per doz. Any 20 for $4.50.**

MADERIA VINE.

Tuberous-rooted climber, with glossy green leaves and delightfully fragrant white blossoms. Sometimes called Mignonette Vine. It is of rapid growth, and from a few tubers vines will be produced sufficient to cover one side of a cottage in a single season. The tubers are tender, and must be protected from the frost during winter. Each, 5c.; doz. 50c.

Bolgiano's Extra Superior

GLADIOLUS

Our magnificient collection of the most beautiful French and American Hybrid Seedlings contains hundreds of varieties, comprising all imaginable colors, shades, and varigations, from the most gorgeous and dazzling to the softest and most delicate shades. It deserves to be grown in every garden. For cutting they are invaluable, the flowers lasting a week in water. There is nothing in the floral kingdom so easy of culture and so sure of success as the Gladiolus They can be planted any time from April to June 15th, and never fail to flower the same season. They commence blooming in July, and by successive plantings every two weeks may be had in flower until checked by frost. They should be planted 6 inches apart, in rows 4 inches deep. Our seedlings embrace all shades of bluff, salmon, pink, crimson, yellow, white, maroon, scarlet, cherry and beautiful variegated and oddly marked varieties. Large size bulbs.

BOLGIANO'S LAWN FERTILIZER.

Stable manure should never be used as the top dressing on lawn, for it always contains large quantities of weeds. We have, therefore, had prepared for us a special lawn fertilizer, which is clean and high grade in every respect, and free from disagreeable odors. It produces a rapid and rich green growth of grass and should be sown broadcast in the Spring or Fall. 10 pounds for 300 square feet, 500 to 1500 pounds per acre. **Prices: Packages 10c, by mail 20c. 5 Lbs. 25c. 10 Lbs. 45c. 25 Lbs. $1.00. 100 Lbs. $2.50. 500 Lbs. $11.00.**
